

California Trim Clinic Launches Medical Weight Loss Program for Teens in California

Offering safe, personalized telemedicine and in-person care to support teen health

At California Trim Clinic

We help teens build lifelong healthy habits through doctor-led weight loss support. Our proven success program helps pre-teens and teens lose 1–2 lbs per week, while boosting confidence, energy, and overall wellness.

Westlake Village, California Sep 20, 2025 ([Issuewire.com](https://www.issuewire.com)) - California Trim Clinic is excited to announce the launch of its specialized **medical weight loss program for teens** in California. This innovative program provides medically supervised, customized weight management solutions designed specifically for Teens 12+, combining expert care with the convenience of virtual and in-person consultations.

With the rise in childhood and adolescent obesity, California Trim Clinic is committed to helping teens 12+ achieve healthy, sustainable weight loss. The program includes personalized treatment plans that may feature nutritional counseling, peptide therapy, and FDA-approved medications such as semaglutide and Trizepatide— all overseen by licensed healthcare providers.

“Our goal is to empower teens and their families to take control of their health with safe and effective medical support,” said Faye Blachette, Weight Loss Coordinator at California Trim Clinic. “By offering both telemedicine and in-clinic visits, we make it easier for teens across California to access expert care tailored to their unique needs.”

Program highlights include:

- Virtual and in-person consultations with experienced medical professionals
- Access to peptide therapy and GLP-1 medications like semaglutide and Tirzepatide
- Ongoing support and monitoring to help teens succeed long-term
