Blenz Has History

Since 1992, Blenz Coffee has been part of communities across British Columbia and Alberta neighbourhood spots where guests gather, connect, and feel at home. From the very beginning, Blenz has been about more than coffee; it's about curating space where communities can come together and friendships can be built - one cup at a time. Coffee is the excuse for forming connections and building community, and the heart of Blenz is to provide you that opportunity and experience to feel like you found your home.

As part of that commitment, Blenz has continued to champion local causes and community outreach programs, from supporting neighbourhood initiatives to recognizing and uplifting everyday heroes. Through the Blenz Cares Program, we celebrate local heroes within the community, from first responders and frontline workers to aspiring young students and educators; while also supporting local causes and initiatives. Blenz is excited to bring that same spirit of community appreciation and support to Milton. With our first Ontario café, Blenz in Milton is bringing that same culture east. The Greater Toronto Area has a vibrant and growing coffee scene, but there's room for something different: a coffee shop that blends West Coast hospitality with a commitment to premium ingredients and exceptional service. At Blenz, you are not our customer, you are our guest.

At Blenz, every beverage is handcrafted with care using only premium ingredients. From our authentic Japanese matcha and Belgian hot chocolate to our expertly roasted coffee blends, quality is at the heart of every sip. One of our proudest offerings, and a long-time community favourite, is the Blenz Hot

Chocolate. Made without powders or syrups, it features single origin Colombian chocolate melted into silky steamed milk for a rich, velvety treat that guests can't stop raving about. It's comfort in a cup and one of the reasons Blenz has been a trusted gathering place for over 30 years.

Why Milton?

Milton is a town full of energy, growth, and community spirit. Opening our first Ontario store here means starting our journey in a place that values both tradition and connection. What makes this opening even more special is that our Milton store is locally owned and operated by community members who are deeply invested in the town's success. At Blenz, every location is run by passionate franchise owners who live and work in the communities they serve, ensuring each café feels like a true neighbourhood hub. That local commitment is what sets us apart and allows us to bring the heart of Blenz into every cup.
