

EB-5 Capital Raising Workshop 2025 to Convene in Los Angeles

EB-5 Capital Strategies: Preparing for the Next Investor Wave

Springfield, Illinois Sep 21, 2025 ([Issuewire.com](https://www.issuewire.com)) - Artisan Business Group, Inc., led by CEO **Brian Su**, announced today the upcoming **EB-5 Capital Raising Workshop 2025**, a small-group seminar designed to equip developers, regional centers, project owners, attorneys, and marketing professionals with strategies to capture the next wave of EB-5 investors.

With President Trump's second term already reshaping U.S. immigration policy—including the launch of the **Trump Gold Card** and the unprecedented **\$100,000 H-1B visa fee**—the EB-5 Immigrant Investor Program is positioned as the most attractive pathway for global families seeking U.S. residency. At the same time, **global tensions**—from the Taiwan Strait to the Middle East, and economic and policy shifts in Hong Kong, Singapore, and mainland China—are accelerating the demand for EB-5 projects that can provide stability, security, and a pathway to the U.S.

The workshop will feature in-depth sessions on:

- **Investor Market Outlook:** How geopolitical forces, capital migration, and onshore demand from international students and H-1B workers are reshaping the EB-5 investor landscape.
- **Structuring Winning Projects:** Best practices in compliance, job cushions, and reserved visa categories to build strong, investor-ready EB-5 projects.

- **Marketing EB-5 in 2026:** Effective strategies to reach H-1B workers, international students, and overseas investors while staying compliant with the Reform & Integrity Act.
- **Action Steps for Developers:** Practical guidance on preparing projects now to capture investor interest during the 2026 EB-5 boom.

The workshop will also include a networking lunch and opportunities for one-on-one discussions with Brian Su and guest speakers, ensuring attendees leave with actionable strategies and valuable industry connections.
