

## Gervais Industrial Machine and Tooling Inc. expands its high-volume drone manufacturing facility in the Philippines

Under the project name Gervais Tactical Solutions, this new Cavite-based factory will produce up to 9,000 advanced defense drones monthly by January 2026, while generating up to 500 job opportunities for Filipino professionals.

**Central Luzon, Philippines Jan 2, 2026 ([Issuewire.com](https://www.Issuewire.com)) - GERVAIS INDUSTRIAL MACHINE AND TOOLING INC.** is thrilled to announce the expansion of its drone factory in the Philippines under the name of **GERVAIS TACTICAL SOLUTIONS**.

Gervais Tactical Solutions will be in operation by the end of October 2025 with a production level of 3,500 drones per month. With productions expected to be 9,000 drones per month beginning January of 2026. The variation of drones ranges from ground drones, aerial drones, submersible drones, long range drones, drone copters, laser weapon systems, and various drone accessories.

The company aims to deliver advanced, reliable, and locally integrated defense technologies to Philippine government agencies and foreign allied partners – while generating meaningful opportunities for Filipino professionals through sustainable job creations and skill development.

In line with Gervais Tactical Solutions' commitment in offering Filipinos employment opportunities that go beyond the conventional work structure, the company has plans of hiring 500 Filipino employees, providing them with career development and skill-enhancing programs, ensuring each employee has access to valuable training that not only improves their professional skills and abilities but also open doors to long-term growth and advancement.

Gervais Tactical Solutions' products are believed to be highly beneficial for the Philippines, particularly with regards to national safety and security.

## COMPANY OVERVIEW

**GERVAIS TACTICAL SOLUTIONS** is a project of Gervais Industrial Machine and Tooling Inc., a PEZA-registered enterprise in the Philippines. Gervais Tactical Solutions is engaged in the manufacturing of military laser systems, optical components, and tactical defense technologies. We specialize in providing mission-ready solutions for land, sea, air, and homeland defense — tailored for Philippine government agencies and trusted by international export clients.

With a foundation built on innovation, compliance, and operational excellence, we are committed to supporting the modernization objectives of the Department of National Defense, Armed Forces of the Philippines (AFP), Philippine Navy (PN) and other public safety institutions. Beyond technology, we are also deeply invested in nation-building by providing high quality employment and skills training to Filipino professionals in the defense and manufacturing sector.

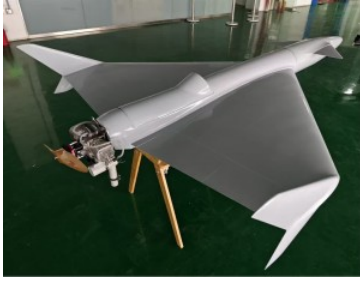

Gervais Tactical Solutions is committed to enhancing Philippine security and sovereignty through the local delivery of advanced, reliable, and government-supported defense systems. We operate a respected research and development center and are capable of manufacturing, training, and technical licensing within the Philippines. This localized capability empowers us to deliver tailored, high-performance solutions while remaining fully aligned with the operational requirements of the AFP, PNP, and PCG. More importantly, it allows us to create high-value jobs for Filipino engineers, technicians, and skilled workers — a core part of our mission.

As part of its long-term commitment to the country, it offers:

- Employment opportunities for Filipino workers in defense technology and manufacturing.
- Internships and job training programs for local students and technical graduates.
- Capacity-building programs to strengthen the country's technical talent pool and innovation pipeline.

The goal of Gervais Tactical Solutions is not just to deliver equipment — but to become a strategic, transparent, and dependable partner to the Philippine agencies as well as foreign clients working to secure and strengthen their national defense capabilities.
