

Imagen Network (IMAGE) Launches Modular Hubs to Strengthen Personalization in Creator Ecosystems

New hubs expand creator visibility and empower personalized community experiences.

Seattle, Washington Sep 16, 2025 ([Issuewire.com](https://www.issuewire.com)) - [Imagen Network](https://www.imagen.network) (IMAGE), the decentralized AI-powered social platform, has launched modular personalization hubs designed to empower creators and strengthen engagement across its ecosystem. These hubs enable real-time customization, adaptive content delivery, and more effective community discovery.

Creators can now tailor their content delivery and audience interactions with greater precision, while communities benefit from curated, relevant feeds that reflect their evolving interests. This modular approach enhances transparency and fosters stronger creator-community relationships.

By launching personalization hubs, Imagen reinforces its vision of building decentralized ecosystems where creators thrive with tools designed for adaptability, scalability, and transparency.

About Imagen Network (IMAGE)

Imagen Network is a decentralized AI-powered social platform that integrates adaptive personalization, transparent engagement, and multi-chain scalability. Its mission is to empower creators and communities with tools that foster meaningful connections across Web3.
