

International Visionary Artist Tia Ray Drops New English Single “PRESSURE”

Kuala Lumpur, Malaysia Sep 29, 2025 ([Issuewire.com](https://www.issuewire.com)) - On September 26, international vocal powerhouse and visionary artist Tia Ray unveiled her newest English single, “PRESSURE,” across global streaming platforms, paving the way for her eagerly awaited debut English album. An internationally recognized R&B/Soul artist, Tia Ray’s forthcoming album—meticulously developed over three years—promises to showcase her complete artistic vision with richer diversity and innovative

styles.

“PRESSURE” fuses the romantic freedom of R&B with the wild, untamed energy of Afrobeats, embodying Tia Ray’s signature vibrant spirit — a free and vigorous life force that flows through love and desire, raw and unrestrained. The track opens with a provocative guitar riff, setting the stage for a fierce urban jungle hunt rather than a dull cat-and-mouse game. The bold declarations in the lyrics express that those who want to love give it their all.

Co-written by Tia Ray, the single continues her collaboration with top international producers, featuring Grammy-winning producer Khris Riddick-Tynes, known for his work with Ariana Grande and SZA. Khris’s production highlights the delicate sensitivity of female artistry while amplifying Tia’s uniquely free-spirited vitality.

“PRESSURE” is now available on Tencent Music Entertainment’s QQ Music, Kugou Music, Kuwo Music, as well as Apple Music, Spotify, KKBOX, and other major global platforms. The track has been winning over music critics, further amplifying anticipation for what industry insiders are calling "a sophisticated Chinese urban record elevated by pristine pop production."
