

Just Good Stuff Launches: Organic Food Supplements for Energy, Immunity & Wellness

Clean, organic supplements born from a journey of recovery

Manchester, United Kingdom Sep 19, 2025 ([Issuewire.com](https://www.issuewire.com)) - Just Good Stuff, a new premium organic food supplement brand, has officially launched in the UK, bringing clean, additive-free superfood blends designed to support energy, immunity and overall wellbeing.

Founded by Gordon Maudsley, [Just Good Stuff](#) was born out of a personal journey of illness and recovery. After years battling glandular fever, post-viral fatigue and the effects of long Covid, Gordon turned to natural, nutrient-rich supplements to rebuild his health. Faced with the challenge of finding effective, clean products at an affordable price, he set out to create his own.

“I know what it feels like to hit rock bottom with your health. Just Good Stuff is about giving people a simple, natural way to get their energy and balance back without the nasties you so often find in

supplements,” said Gordon Maudsley, Founder of Just Good Stuff. “Our mission is to make high-quality, organic nutrition accessible and sustainable.”

Clean, Plant-Based Nutrition You Can Trust

Just Good Stuff’s launch range includes [Immunity and Total Wellness blends](#), both packed with nutrient-dense superfoods such as spirulina, chlorella, wheatgrass and antioxidant-rich berries. All products are:

- 100% organic and free from fillers, additives, preservatives, or bulking agents.
- Vegan-friendly, gluten-free, soy-free, and GMO-free.
- Manufactured in the UK to the highest BRC/ISO standards in an organic-certified facility.

Each blend is formulated to deliver concentrated levels of antioxidants, vitamins and essential fatty acids, providing more than a typical daily diet can supply. The result: natural support for energy, immunity and daily wellness.

Sustainability at the Core

Just Good Stuff is committed to ethical and sustainable practices. Ingredients are sourced from trusted farms and partners who support growers and reinvest in local communities. With every purchase, customers not only support their own health but also contribute to a healthier planet.

“Health should never come at the cost of sustainability,” added Maudsley. “From sourcing to production, we ensure our supplements are good for people and good for the planet.”

About Just Good Stuff

Just Good Stuff is a UK-based health and wellness company offering organic superfood supplements crafted to boost energy, immunity and overall wellness. Built on the ethos that health should be simple, accessible and sustainable, the brand is dedicated to helping people live healthier lives while protecting the planet.
