

Leading Expense Software Innovator, ExpenseOnDemand, Launches Next-Gen AP Automation Tool

London, United Kingdom Sep 2, 2025 ([IssueWire.com](https://www.issuewire.com)) - ExpenseOnDemand – unwavering disruptor and innovator in the expense management space – has announced the release of its latest product feature, AP Automation.

Distinct from ExpenseOnDemand's other recent product launches, which include AI innovations and voice-controlled in-app functionality, the announcement of their AP Automation may appear comparatively humble, but provides no less benefit for their 15,000 strong client-base.

"Legacy AP processes remain a huge problem for millions of businesses." Comments Siddharth Nigam, Director of Product & Strategy at ExpenseOnDemand. "Manual invoice processing can cost an unbelievable amount of resources, and it's completely unnecessary. Our AP automation can easily take on this burden and give skilled employees their valuable time back."

Through the introduction of their new AP solutions, ExpenseOnDemand's product promises a robust and holistic financial management solution for businesses. With both expense management and invoice processing under one roof, accounts teams and financial controllers can monitor inbound requests, approve and make payments, and build detailed financial reports all from a single application.

With benefits including:

- Direct integration with financial tools like Xero, QuickBooks and Sage
- Powerful, AI-lead automated invoice data capturing
- Automated compliance and fraud prevention protocols
- Intuitive analytics and reporting dashboards

ExpenseOnDemand's AP Automation solution reduces errors, increases productivity, provides greater visibility of spending, and optimises financial planning workstreams.

An ideal solution for both small businesses with limited time, and large enterprises with vast numbers of invoice to process, ExpenseOnDemand's AP Automation is available now within the full suite of ExpenseOnDemand features. Interested businesses can secure access to this [AP Automation Software](#) by visiting the company's website for a demo or free trial.
