

## NovaJet Charters Elevates Private Aviation Across Canada and Beyond

**Mississauga, Ontario Jan 9, 2026** ([Issuewire.com](https://www.issuewire.com)) - [NovaJet charters](#) set the benchmark for premium private aviation, combining safety, sophistication, and decades of expertise. With headquarters at 6965 Vanguard Dr, 2nd floor, Mississauga, ON L5S 0B2, Canada, the company delivers seamless air travel tailored to both corporate and leisure clients.

Recognized as one of Canada's earliest ARG/US Platinum-rated operators and holding IS-BAO Stage 3 registration, NovaJet consistently demonstrates its commitment to operational excellence and passenger safety. With a diverse fleet that includes Bombardier Global 6500s, Dassault Falcon 900EX, Gulfstream G200, Hawker 750, and IAI Astra SPX, the company offers aircraft suitable for short regional trips and long-range international journeys alike. Clients benefit from unrivalled flexibility, comfort, and performance.

NovaJet charters are supported by 24/7 concierge services, personalized flight planning, and attentive customer care. Every aspect of the journey—from booking to landing—is designed for convenience and peace of mind. Whether arranging business travel or a luxury leisure experience, passengers enjoy refined onboard amenities, including Wi-Fi connectivity, entertainment systems, and quiet, spacious cabins. Ground transportation coordination and custom catering are also available to complete the premium experience.

The company's transparent and client-focused approach ensures that travellers can plan with confidence. For more information, flight quotes, or to learn more about NovaJet's fleet, clients may call +1 905-673-0287. Written correspondence and in-person inquiries are welcome at the Mississauga headquarters, located at 6965 Vanguard Dr, 2nd floor, ON L5S 0B2, Canada. Additional details are also available on the official NovaJet website.

NovaJet continues to redefine private air travel by providing exceptional service, proven safety, and unmatched flexibility through its fleet of world-class aircraft.
