Outbreak Zero Brings AAA Survival Horror to PC with Upcoming Demo

Independent developer **NEXT GENERATION GAMING** today announced the upcoming release of the ***Outbreak Zero***, a cinematic third-person survival horror experience built with Unreal Engine 5. Launching soon on **Steam** and the **Epic Games Store**, *Outbreak Zero* combines chilling storytelling, brutal combat, and haunting visuals to deliver a terrifyingly immersive survival horror adventure.

A City on the Brink of Collapse

A zombie outbreak erupts in a subway station just as a train is about to depart. Chaos consumes the city as people scramble for survival. In the aftermath, players step into the role of Max, a survivor determined to uncover the origins of the infection and search for a way to stop it.

Exploring dark tunnels and abandoned streets, Max must face limited resources, horrifying enemies, and the creeping madness of a city consumed by death. Every corner hides danger, every decision matters, and survival is anything but guaranteed.

Gameplay Features

- Survival Under Pressure – Face a city overrun by the undead, where every shot counts and every choice can mean life or death.
- Exploration & Discovery – Uncover the secrets of a forgotten outbreak through atmospheric environments, cryptic notes, and eerie flashbacks that blur the line between reality and madness.

- Intense Combat – Engage in brutal third-person battles, seamlessly switching between firearms and melee to survive overwhelming hordes.
- Puzzles & Progression – Solve environmental puzzles and unlock new areas with wit and resourcefulness.
- Classic Survival Mechanics – Manage your inventory, use save rooms, and store items strategically.
- Terrifying Enemy Variety – From bloodthirsty zombies to mutated creatures and nightmare-fueled abominations.
- Immersive Atmosphere – A haunting OST inspired by survival horror classics, paired with detailed visual rendering powered by Unreal Engine 5.
- Unlockable Content – Weapons, equipment, and in-game rewards for players who survive long enough.
