

PAES PRO and Spirit of Math Partner to Bring International Spirit of Math Contest to Chile for 2025-26 School Year

North York, Ontario Sep 24, 2025 ([IssueWire.com](https://www.issuewire.com)) - [PAES PRO](#) and [Spirit of Math](#) are thrilled to announce an exciting collaboration that will bring the International Spirit of Math Contest to Chile for the 2025-26 school year.

The partnership is a continuation of Spirit of Math's unwavering commitment to promote co-operation, inspire confidence and release the genius in every child all around the world. This collaboration will give Chilean students the opportunity to showcase their abilities on an international stage, while growing their confidence and skills which they will need for future success.

"At Spirit of Math, we are dedicated to revolutionizing education for students everywhere," said [Kim Langen](#). "We are excited to support PAES PRO in their mission to cultivate young talent and help students realize their greatest potential."

PAES PRO was founded by the same team behind PREU CÓNDORES and Editorial CÓNDORES, two well-respected entities in Chile's pre-university and educational publishing landscape. This strong background in education and content development provides PAES PRO with a solid foundation and reputation for academic excellence.

PAES PRO, have solid experience organizing academic events and assessments for students across various educational contexts. They have conducted large-scale mock exams in municipal schools, private institutions, and pre-university academies, tailoring each event to the specific needs of the school community. Their work includes both on-site and remote formats, ensuring accurate implementation, timely feedback, and structured performance analysis through their own platform.

The partnership is one of many collaborations Spirit of Math is undertaking with international organizations to bring the International Spirit of Math Contest to every corner of the world. Competitive events such as these offer children an excellent opportunity to develop important skills such as analysis, problem solving and critical thinking. They also get the personal satisfaction (and motivational boost) of tackling and conquering some of the hardest questions.
