

ProAI Partners with CrimsonStark to Launch Affiliate Program; Onboards Tapline.io as First Affiliate

New York City, New York Dec 29, 2025 ([Issuewire.com](https://www.issuewire.com)) - ProAI, a leader in innovative AI-driven business plan and advisory solutions, is excited to announce its strategic partnership with CrimsonStark to launch its new affiliate program. This collaboration marks a major milestone for ProAI, as they are set to expand their reach and engagement with businesses across industries by empowering affiliates to promote their cutting-edge AI tools and services.

The launch of ProAI's affiliate program is designed to offer businesses, digital marketers, and influencers a unique opportunity to earn commissions by referring clients to ProAI's suite of advanced AI technologies. With CrimsonStark managing our affiliate program, ProAI is able to reach new customers and expand into new markets, driving faster and more scalable revenue growth.

"We're thrilled to take this step forward in our growth journey with CrimsonStark," said Aaron Hill, CEO of ProAI. "The affiliate program will allow us to scale quickly and efficiently while continuing to deliver value to our current customers. Tapline.io, as our first affiliate partner, sets the stage for a successful and mutually beneficial partnership."

"We're excited to support ProAI in launching a scalable and performance-driven affiliate program," said Ienura Whitener, CPO of CrimsonStark. "ProAI's innovative solutions are a perfect fit for today's market, and we're confident this program will create strong, long-lasting relationships with affiliate partners who believe in the power of AI."

Tapline.io, an established player in providing financing for SaaS and Subscription based businesses, is the inaugural partner to join the ProAI Affiliate Program. ProAI's solutions are highly complementary to Tapline, and they are excited to collaborate with ProAI in bringing these state-of-the-art AI products to their network of clients.

"ProAI's technology is game-changing, and we are proud to be their first affiliate partner," said Peter Grouev, CIO of Tapline.io. "By promoting ProAI's offerings, we look forward to driving real value for our clients, allowing them to capitalize on the funding we provide."

The ProAI Affiliate Program is now open for additional partners to join. Those interested in becoming part of this innovative program can visit <https://proai.co/affiliate> to learn more and sign up.

About ProAI

ProAI is an AI-powered business planning platform that helps entrepreneurs and companies build professional business plans, generate investor-ready financial models, and access relevant market insights.
