

Reliable Industrial Automation Parts Supplier in the USA

Anaheim, California Jan 3, 2026 (Issuewire.com) - **Buy Industrial Parts** is a premium provider of industrial automation and control system components. Accredited to AS9120B, ISO 9001:2015, and FAA AC 00-56B standards, we specialize in sourcing high-quality, hard-to-find, new, and surplus parts for critical applications.

What We Offer

- An extensive inventory of **over 2 billion** parts, including new, used, obsolete, and hard-to-find items.
- Components across multiple categories: solenoids, capacitors, bearings, resistors, sensors, controllers, circuit breakers, shrink tubing, electromechanical parts, fasteners, overload relays, and more.
- Coverage of over **5,100 manufacturers**, supporting diverse industrial brands and systems.
- Fast, responsive quoting: guaranteed to respond within 15 minutes, 24/7/365.

Why Choose Us

- **Assured Quality** — All sourced parts undergo thorough vetting, inspection, and testing to meet rigorous standards.
- **Credible Accreditation** — AS9120B and ISO 9001:2015 credentials enhance trust and compliance, especially in aerospace, government, and defense sectors.
- **No China Sourcing Pledge** — We commit to fulfilling orders only from U.S.-based sources and comply with U.S. export laws.
- **Customer-Focused Service** — Our team is available to provide one-on-one support for procurement decisions, order tracking, and technical queries.
- **Global Reach, Local Assurance** — While orders are fulfilled within the U.S., we serve clients globally, especially in regulated and mission-critical industries.

Commitment & Trust

We stand by delivery reliability, competitive pricing, and full compliance with industry standards. Whether you're sourcing parts for maintenance, repair, overhaul (MRO), or highly regulated projects, BuyIndustrialParts.com is designed to be your dependable sourcing partner.
