

Rise 360 Launches AI Infrastructure Solutions to Power Small Business Growth

Affordable, scalable AI tools combined with people-focused solutions to transform operations, empower employees, and unlock long-term value.

Newport News, Virginia Sep 22, 2025 ([IssueWire.com](https://www.issuewire.com)) - Rise360 Launches AI Infrastructure Solutions to Empower Small Businesses with Smarter Technology and Stronger Business Value

Rise 360, a leader in next-generation business technology, today announced the launch of its **AI Infrastructure Solutions** designed specifically for **small businesses**. This innovative service helps small companies harness artificial intelligence (AI) to streamline operations, reduce costs, and unlock new growth opportunities—without the complexity or expense often associated with enterprise-level solutions.

“Small businesses are the backbone of our economy, yet many face barriers when it comes to adopting AI and automation,” said Annie Damato, VP Operations of Rise 360. “Our AI Infrastructure Solutions are built to level the playing field—giving small businesses affordable, scalable tools to improve efficiency, customer engagement, and decision-making.”

The **AI Infrastructure Solutions** offering addresses common challenges small businesses face, including:

- **Data Overload** – Turning information into actionable insights for smarter, faster decisions.
- **Manual Processes** – Automating repetitive tasks to save time and reduce errors.
- **Customer Engagement** – Delivering AI-powered insights to personalize and enhance customer experiences.
- **Scalability** – Providing infrastructure that grows with the business without heavy IT

investments.

- **Cost Barriers** – Delivering enterprise-grade AI solutions at small business-friendly pricing.

But Rise 360 doesn't stop at technology. Beyond infrastructure, the company's **corporate solutions are designed to unlock the full potential of businesses and their employees—not just by enhancing skills, but by transforming mindsets and achieving operational excellence.** This holistic approach ensures that organizations build both the technical backbone and the human capacity needed to thrive in today's fast-changing market.

"AI isn't just for big corporations anymore," added Annie Damato. "We've created a pathway for small businesses to thrive in the digital era—equipping them with tools, strategies, and leadership development that drive sustainable success."
