

Shop Testo Introduces the Testo 104-IR Thermometer in the UAE

Testo GCC offers a wide range of high-precision measuring instruments for HVAC, refrigeration, food safety, and more. Providing calibration, repairs, and expert support, Testo ensures top-quality service for various industries in the UAE.

TESTO 104-IR INFRARED/PENETRATION THERMOMETER

The testo 104-IR food safety thermometer is ideal for carrying out temperature and food safety checks. And because it fits snugly in any pocket, it's always there when you need it to carry out checks on incoming goods, spot checks during transport or food inspections in the retail industry.

 shop.testogcc.ae

Dubai, United Arab Emirates Sep 7, 2025 ([Issuewire.com](https://www.Issuewire.com)) - Shop Testo, the official GCC distributor for Testo products, is now offering the [Testo 104-IR Infrared & Penetration Thermometer](#) in the UAE. This handy tool helps businesses and professionals check food temperatures quickly, safely,

and accurately.

The **Testo 104-IR** is special because it combines two functions in one device:

- **Infrared scanning** to measure surface temperatures without touching the food.
- **Penetration probe** to check the inside temperature of products like meat, liquids, or semi-solid food.

This makes it perfect for food safety checks during delivery, storage, or preparation. The thermometer is also waterproof and easy to clean, which is important for hygiene.

With the Testo 104-IR, food businesses can save time and get reliable results. It's simple to use and designed to meet international food safety standards.

The thermometer is especially useful for:

- Restaurants and catering services
- Food transport and storage companies
- Food inspectors and safety officers

Customers in the UAE can now order the Testo 104-IR from Shop Testo with fast delivery and official Testo warranty.

About Shop Testo

Shop Testo is the official online store for Testo products in the GCC. Testo is a global leader in measurement instruments, trusted by professionals in food safety, HVAC, and many other industries.
