

Sir Joseph Peebles Has Just Earned His PhD in International Trade & Finance

Chesterfield, Missouri Sep 19, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Congratulations. We are excited to announce that **Sir Joseph Peebles, President & CEO of the Peebco Energy Group**, has been awarded a PhD in **International Trade & Finance** from a major, International University in Paris, France. "It seems that I am developing a major connection to the city known for conjuring up the Eiffel Tower and cobbled streets. My **Chevalier Knighthood**, under the French Royal Order of **La Confrerie de la Chaine des Rotisseurs**, and now a PhD in **International Trade & Finance**, has once again brought me back to this exceptional metropolitan known for its world-renowned art, fashion, café culture, and romantic charm. Combined, this is truly both an honor and a privilege to be associated and recognized by such a flagship municipality," **Sir Joseph Peebles, PhD** articulates. Some of **Sir Joseph's** past accomplishments thus far have been:

- On June 13th, 2021, within the **Louis Catholic Archdiocese**, **Sir Joseph** was one of the recipients for **Catholic Man of the Year**.
- On June 25th, 2024, **Sir Joseph** graduated from **Harvard University Business School's** "International H-BAP program."
- On September 4th, 2024 **Sir Joseph** was accepted into **Seton Hall Law School** for **International Business Compliance and Regulations**.
- On November 10th, 2024, **Sir Joseph** was inducted into **The Royal Society of St. George**.
- On November 26th, 2024, **Sir Joseph** was appointed to the **United Nations Association**.
- On January 21st, 2025, **Sir Joseph** was accepted within the **American Bar Association**.
- On August 22nd, 2025, **Sir Joseph** earned his PhD in International Trade & Finance.

"Over time, hard work does pay off," **Sir Joseph** states. "Yes, there will be bumps in the road along the way. There will be failures to launch, and there will be detours within the journey. However, the enduring quality, within one's self, comes versatility, adaptability, and resolution to get back into the race. For me, with a confident vision, and in my attempt to reimagine a better world, my journey has always been about providing for both the planet and the greater good of its inhabitants. Hence, as the French saying goes - **Après la pluie, le beau temps - After the rain, with good weather, things will improve**," **Sir Joseph** concludes.

Again, Congratulation, Sir Joseph Peebles, PhD
