

SMARTGOLF World's First DePIN, AI and RWA Integration in Golf Training

The Future of Sports on Web3

Seoul, South Korea Sep 25, 2025 ([Issuewire.com](https://www.issuewire.com)) - SMARTGOLF Inc., a leader in AI-powered golf training systems, announced its pioneering integration of Decentralized Physical Infrastructure Networks (DePIN) and Real World Assets (RWA) into the world of sports. By combining its patented SmartGolf AIX swing analysis device with the SGi utility token, SMARTGOLF is transforming golf into a decentralized, rewarding ecosystem where every swing drives personal improvement and blockchain-based value creation.

As DeFi reshaped finance, DePIN and RWA are poised to redefine real-world interactions, with the DePIN sector projected to exceed \$10 billion in market value in the coming years. SMARTGOLF leads this transformation, tokenizing golf swings as encrypted motion data (RWA) to power AI-driven coaching while rewarding users with SGi tokens. This creates a global network of athletes contributing to a decentralized economy, seamlessly blending blockchain with everyday lifestyles.

"SMARTGOLF is redefining how sports and technology intersect," said Jongmin Kim, CEO of SMARTGOLF Inc. "By leveraging DePIN and RWA, we're empowering athletes to own their data, earn rewards, and elevate their game—proving that Web3 can make even the most traditional activities innovative and inclusive."

Traction and Adoption Metrics

- **Active Users:** Over 4,500 golfers currently train with the SmartGolf AIX device, generating swing data and earning SGi tokens.
- **SGi Telegram Community Reaches 67,000 Members, Heading Towards 100,000 Members.**
- **Token Trading:** SGi, launched as an ERC-20 token on Ethereum in Q2 2025, is live on Uniswap, with a Binance Launchpool listing targeted for Q3 2025 to expand liquidity.
- **Partnerships:** AIX has been adopted by golf academies and educational institutions, including Rice University in the U.S., and has received support from professional golfers and coaches.
- **Geographic Presence:** SMARTGOLF has expanded into Korea, Japan, Spain, the Netherlands, New Zealand, and the U.S., demonstrating early international scalability.
- **Patents and IP:** Backed by U.S. Patent No. 11,918,883 B2 and Korean Patent Application No. 10-2025-0064897, ensuring protection of its proprietary swing analysis and AI-driven technology.
- **Industry Recognition:** The company has showcased its innovation at VivaTech (Paris), Expand North Star (Dubai), the PGA Show 2025, and the K-Content Expo (Seoul), reinforcing credibility in both Web3 and sports technology arenas.

Roadmap and Company Targets

- Expand to 50,000 active global users by 2026.
- Achieve 20% quarterly user growth through international adoption.
- Scale SGi trading volume to US\$10M monthly across DEXs and CEXs by 2026.
- Distribute 50 million SGi tokens in rewards by the end of 2026.
- Grow partnerships to 30+ golf academies/clubs and 10+ universities worldwide.
- Increase its patent portfolio to 15 registered patents by 2027.
- Ensure annual participation in the top five Web3 and SportsTech events worldwide.

Certified Project

- Audit by CertiK – Ensuring top-level security and transparency.
- Legal confirmation by leading law firm – Compliance you can trust
- Endorsed by PGA professionals – Proven and recognized in the golf industry

SMARTGOLF Drives RWA Tokenization in Sports Unlocking New Paths for Investment and Economic Growth

With major players like BlackRock advancing RWA tokenization and protocols like MakerDAO incorporating real-world assets, SMARTGOLF's approach demonstrates how sports can evolve into decentralized ecosystems, driving sustainable growth in Web3.

About SMARTGOLF Inc.

SMARTGOLF Inc. is at the forefront of AI-powered golf training integrated with Web3. Through the SmartGolf AIX device and SGi token, users earn rewards while improving their skills. Supported by SmartGolfDAO, the company is dedicated to decentralizing sports and lifestyle activities. Visit <https://smartgolf.io/> for more details.
