

SmartWebi Launches: The All-in-One Business Platform That's Redefining Growth in the Digital Age

SmartWebi unites websites, CRM, marketing, payments, automation, and AI into one seamless platform — eliminating fragmented tools and redefining business growth.

The image features a woman with curly hair, smiling, standing in front of a light blue background. Surrounding her are several floating screens and icons representing the SmartWebi platform's capabilities:

- Estimates:** A screen showing "Create and Manage all estimates generated for your business" with fields for "Estimate Number", "Estimate Date", and "Supply Date". It displays a total of \$16,797.00.
- Orders:** A screen titled "Track all order submissions in a single place" showing a table of orders with columns for "Status", "Name", "Email", "Phone", "Address", "City", "State", "Zip", "Country", "Currency", "Amount", "Payment Method", and "Payment Status".
- Estimate Settings:** A screen for configuring estimate settings, including "Estimate Number", "Estimate Date", "Supply Date", and "Add Products".
- One Tool to Rank:** A screen with the heading "One Tool to Rank" and a sub-heading "to check the performance of your website". It includes a "Check my website for SEO" button and a "What you'll get" section listing "Premium Keyword", "E-commerce", and "Duplicate Content".
- Dashboard:** A comprehensive dashboard with multiple widgets. It includes a "Opportunity Status" widget showing a count of 4, a "Opportunity Value" widget showing \$10.92K, a "Conversion Rate" widget showing 25%, a "Revenue" widget showing \$3.93K, and a "Stage Distribution" widget showing a count of 4. It also features a "Marketing Metrics" section with a bar chart.
- Review Trends:** A small bar chart showing trends over time.

Surat, Gujarat Sep 3, 2025 (Issuewire.com) - In today's fast-moving digital world, businesses are burdened by scattered tools, rising costs, and operational inefficiencies. **SmartWebi has officially launched as a revolutionary all-in-one business platform**, built to unify and simplify the way companies of all sizes operate, scale, and succeed.

SmartWebi consolidates every core business function into a single, intelligent ecosystem — including Website Builder, Automation, Funnel Builder, CRM & Lead Management, Reputation Management, Multi-channel Marketing (email, SMS & social), Payments & Invoicing, Reporting & Analytics, Appointment Scheduling, VoIP Phone Communication, and next-generation AI Assistants (Voice AI, Conversation AI, Reviews AI, Content AI, Funnel AI, and Workflow AI).

Instead of managing fragmented platforms, businesses now have a **single powerhouse solution** that delivers speed, efficiency, and growth like never before.

Why SmartWebi is a Game-Changer

- **Unified Powerhouse:** All-in-one platform combining websites, CRM, automation, payments, marketing, communication, analytics, and AI.
- **AI at the Core:** Real-time insights, predictive analytics, and automated workflows to maximize business performance.
- **Scales With You:** Flexible for startups, powerful for enterprises, and adaptable to every stage of growth.
- **Global-First Design:** Built to handle multi-language, multi-currency, and cross-industry challenges with ease.

Transforming Every Industry

From **healthcare and finance to retail, IT, hospitality, education, and government**, SmartWebi adapts effortlessly to industry-specific needs. With ready-to-use modules, businesses can launch quickly, serve smarter, and scale without limits.

Founder's Vision

“SmartWebi was created to solve a problem every business faces: too many tools, too little integration. We designed one powerful ecosystem that empowers companies to focus on growth, innovation, and customer success — without the headaches of complexity,” said Akshay Devikar, CEO of SmartWebi.

About SmartWebi

SmartWebi is not just software — it's the future of business. This next-generation all-in-one platform integrates **CRM, automation, analytics, marketing, payments, communication, reputation, and AI intelligence** into one seamless hub.

Unlike rigid, outdated systems, SmartWebi is built for **adaptability, scalability, and innovation**. From startups chasing momentum to enterprises managing global operations, SmartWebi enables businesses to **work smarter, grow faster, and lead the digital era**.
