

The ISCPO Welcomes System Loco to Advance Global Supply Chain Security and Visibility

With technology trusted by 80% of security IoT providers, System Loco combats the cargo theft epidemic and protects global supply chains.

Dallas, Texas Sep 9, 2025 ([Issuewire.com](https://www.issuewire.com)) - The International Supply Chain Protection Organization (ISCPO) is proud to announce *System Loco* as its newest partner.

As cargo theft reaches unprecedented levels and vulnerabilities threaten global commerce, ISCPO continues to bring together partners committed to collaboration, innovation, and knowledge-sharing. System Loco joins this mission by delivering NIST-certified IoT devices and edge-intelligent data solutions that help supply chain professionals not only monitor shipments but also predict, prevent, and protect against risks before they materialize.

*"On behalf of the ISCPO, I am thrilled to welcome System Loco to our Emerging Partner Program," said **Byron Smith, ISCPO President & Chairman**. "Their expertise in securing high-value goods, protecting cold chain integrity, and addressing security-critical vulnerabilities makes them an invaluable resource for our members focused on risk reduction and loss prevention."*

*"For System Loco, this partnership represents more than technology—it reflects a shared mission with ISCPO to strengthen supply chain resilience. By combining ISCPO's unrivaled network with System Loco's experience in visibility and risk mitigation, we aim to raise awareness, share best practices, and support the community in developing stronger strategies against today's most pressing security challenges," said **Souroush Honary, Co-CEO of System Loco**.*

Technology That Delivers Real Results

System Loco's solutions are already trusted across industries where security and reliability are non-negotiable. By combining real-time cargo intelligence through end-to-end visibility devices, seamless integration with leading logistics platforms such as Macropoint, TMS, and ERP/WMS systems, predictive edge capabilities that identify risks early, and automated compliance reporting, System Loco

delivers an ecosystem that empowers organizations to reduce losses, strengthen resilience, and streamline operations.

What This Means for Supply Chain Professionals

This partnership extends beyond innovative technology to building a stronger, more informed community. Members will benefit from shared research, educational insights, and collaborative initiatives that raise awareness of emerging threats and highlight proven strategies to mitigate risk. By combining ISCPO's role as the leading voice in supply chain protection with System Loco's expertise in predictive intelligence, this partnership supports members in safeguarding assets, reducing losses, and strengthening resilience across today's complex supply chain landscape.

About System Loco

Headquartered in the UK with a global footprint, System Loco is a pioneer in supply chain visibility and predictive intelligence. With 2.8M+ IoT devices deployed, 65+ country certifications and 70+ airline certifications, System Loco empowers logistics providers, insurers, manufacturers, and retailers with real-time device data to combat theft, reduce financial losses, and ensure compliance across global operations. Because in today's supply chain, data isn't just power; it's protection. Learn more at www.systemloco.com.
