

THINKWARE Launches All-New THINKWARE CONNECTED App, Delivering a Smarter, More Seamless Driving Experience

THINKWARE has launched its redesigned CONNECTED app, featuring a modern interface, faster performance, in-app subscription management, and advanced safety tools, giving drivers worldwide a smarter, safer connected driving experience.

THINKWARE DASH CAM™

Monitor. Control. Protect.

With THINKWARE CONNECTED

San Francisco, California Sep 5, 2025 ([Issuewire.com](https://www.issuewire.com)) - THINKWARE, a global leader in dash cam and automotive technology, today announced the official release of its completely redesigned

THINKWARE CONNECTED app. The updated platform brings a fresh, modern look and an expanded set of powerful features designed to give drivers in the U.S. and around the world a smarter, more intuitive connected driving experience.

Built with global users in mind, the new app offers a streamlined, user-friendly interface and faster performance, creating a premium, consistent experience no matter where you drive. The upgrade also introduces more convenient in-app purchasing and subscription management options, along with advanced safety and remote monitoring capabilities.

What's New in the THINKWARE CONNECTED App

Modern, Global-Friendly Design

A clean, vibrant interface optimized for clarity, accessibility, and ease of use across devices and regions.

Faster, More Reliable Performance

Core upgrades make the app quicker, more stable, and more responsive.

In-App Subscription Management

Easily renew or extend service plans directly in the app with monthly or annual payment options.

Advanced Emergency & Safety Tools

- **SOS Alerts** – Send real-time emergency notifications to pre-registered contacts with GPS location and video links.
- **Impact Notifications** – Receive alerts (with thumbnail previews) when your vehicle is hit—whether parked or on the road—plus instant video upload and playback.
- **Remote Live View** – Check in on your vehicle anytime via live front and rear camera feeds.
- **Geo-Fencing** – Set virtual safety zones and get alerts when your vehicle enters or exits them.

Enhanced My Route Feature

Visualize your driving history and review key safety events for greater awareness and self-evaluation.

Integrated Customer Support

Contact THINKWARE support quickly and easily through a new SendGrid-powered inquiry system for faster responses worldwide.

This release also marks the **first time THINKWARE has offered full in-app subscription extensions**, giving drivers more flexibility and control than ever before. Additional upgrades include an improved “Last Parking Location” with images, enhanced ADAS event tracking, and an interactive UI—transforming the app into a true smart driving assistant.

Compatible Dash Cam Models

- **LTE Models:** T700
- **Wi-Fi Models:** U3000, U1000 PLUS, Q1000, Q850

Pricing

\$6/month or \$60/year (one-time annual payment available)

The new THINKWARE CONNECTED app is available now for download on **Google Play** and the **Apple App Store**.

“This update reflects our ongoing commitment to making driving smarter, safer, and more connected,” said a THINKWARE spokesperson. “By improving usability, accessibility, and subscription flexibility, we’re raising the standard for what drivers can expect from connected dash cam technology.”
