

Top3Doctors.com, named Dr. Rodney Raanan as Top Dentist in Beverly Hills for 2025

The Harvard-Trained Cosmetic Dentist in Beverly Hills, Dentist Known for Celebrity Smiles Gets the Big Honor

Beverly Hills, California Sep 25, 2025 ([Issuewire.com](https://www.issuewire.com)) - Dr. Rodney Raanan has been named a Top Doctor for 2025 by [Top3Doctors.com](https://www.top3doctors.com). The Beverly Hills cosmetic dentist and prosthodontist earned the recognition for his work in aesthetic dentistry and his "Own Your Smile™" approach to patient care.

[Dr. Rodney Raanan](#) runs his practice from a penthouse suite on Camden Drive in Beverly Hills, where he treats celebrities and high-profile clients who need discretion and top-tier results. His patient list includes some of the most famous smiles in entertainment, though he maintains strict confidentiality about his clientele.

After graduating summa cum laude from UCLA, Dr. Raanan earned his dental degree with honors from USC. He then spent three years at Harvard School of Dental Medicine, where he completed advanced training in prosthodontics and earned his Master of Medical Sciences degree.

The Top3Doctors.com selection process looks at clinical skills, patient outcomes, and real patient reviews. They don't accept payments for listings, focusing instead on doctors who combine medical expertise with genuine patient care.

What sets Dr. Raanan apart is his innovation in the field. He developed NuVeneers®, a new type of veneer that looks more natural than traditional options. He also created the Atelier Aesthetic Lab inside his practice – one of the first in-office dental labs where patients can watch their custom dental work being made through glass walls. Master ceramists handcraft each restoration while patients observe on 4K monitors.

"We know the difference a smile can make," Dr. Raanan says. "Every decision we make could impact

someone's chances of landing a job, making a good first impression, or finding love. That's why it has to be perfect."

The lab concept brings transparency to cosmetic dentistry. Patients see exactly how their veneers or crowns are created, from start to finish. It's a departure from the typical model where dental work happens off-site at outside labs.

Dr. Raanan's practice philosophy centers on subtlety. He avoids the overdone look that some cosmetic dentists produce, instead focusing on enhancements that look completely natural. This approach has earned him referrals from plastic surgeons and other specialists who work with entertainment industry clients.

Beyond his Beverly Hills practice, Dr. Raanan teaches part-time at UCLA School of Dentistry. He also runs the Giving a Smile Foundation, which provides dental care to underserved children. The foundation addresses a real need – more than 25% of Los Angeles children live below the poverty line and lack access to quality dental care.

His office reflects his commitment to luxury patient care. The 12th-floor penthouse features Italian furniture, crystal-inlaid walls, and amenities designed to eliminate dental anxiety. For out-of-town VIP clients, the practice offers concierge services including travel coordination and accommodation assistance.

[Dr. Raanan](#) specializes in porcelain veneers, complete smile makeovers, teeth whitening, Invisalign, gum contouring, and dental implants. His dual training as both a cosmetic dentist and prosthodontist allows him to handle complex cases that require both aesthetic improvement and functional restoration.

The practice has operated for over 30 years with a focus on patient education and empowerment. Rather than pushing procedures, Dr. Raanan guides patients through their options so they can make informed decisions about their dental health.

His work has attracted attention not just for its quality but for its discretion. Public figures appreciate the privacy his practice provides, along with results that photograph well under studio lighting and hold up to close scrutiny.
