ENT. NO ROAMING. NO CONTRACT. NO COMMITMENT. NO ROAMING. NO CON

Anchorage, Alaska Sep 20, 2025 ([Issuewire.com](https://www.issuewire.com)) - Defy Mobile Emerges as Top Choice for Travelers Seeking Affordable eSIM Data Over Traditional Carriers

As international travel and cruise tourism continue to grow, travelers are increasingly choosing [Defy](https://www.defymobile.com)

[Mobile](#) over traditional mobile carriers for their data needs. With instant activation, no roaming fees, and coverage in over 200 countries, Defy Mobile is redefining how people stay connected abroad.

Unlike legacy providers that require physical SIM cards, long-term contracts, and expensive roaming plans, Defy Mobile offers [flexible, pay-as-you-go eSIMs](#) that activate instantly via QR code or app. Travelers visiting destinations like Japan, China, Turkey, UAE, UK, and the USA are saving significantly, often paying less than \$5 for high-speed data.

“Travelers want freedom and simplicity,” said David Sarver, Founder of Defy Mobile. “We built Defy to eliminate the pain points of traditional carriers, no SIM swaps, no hidden fees, just instant data when and where you need it.”

Cruise Ship Partnerships: Seamless Connectivity at Port

Anchorage, a key port for cruise ships in Alaska, is now part of Defy Mobile’s latest initiative: [partnering with cruise lines](#) to offer eSIMs directly to passengers as they disembark. This allows travelers to bypass costly shipboard Wi-Fi and roaming charges, giving them instant access to local networks.

“Cruise passengers often face connectivity blackouts or high fees when they reach port,” Sarver added. “With Defy Mobile, they scan a QR code, activate their eSIM, and they’re online within minutes—ready to explore, navigate, and share their journey.”

This partnership reflects Defy Mobile’s commitment to **revolutionizing travel connectivity**, especially in regions like Alaska where tourism and tech innovation intersect. As the travel industry evolves, Defy Mobile is positioning itself as a [disruptive force in mobile data](#), offering smarter solutions for modern explorers.

About Defy Mobile

Founded in 2014, Defy Mobile offers eSIM services tailored for travelers, remote workers, and global citizens. With a focus on affordability, transparency, and ease of use, Defy Mobile empowers users to stay connected wherever they go.
