

UK Financial Ltd Announces Listing Dates, Cancels 2019 Backing Bitcoin W/Gold Agreement & Gives MCAT Full Gold Backing

UK Financial Ltd Announces The Listing Dates For WMPRA & RPWMPRA On Cat.Ex & Votes To End The 2019 Agreement Of Backing Bitcoin With Gold, & Will Use The entire 21M MPRA To Back MCAT W/Gold

Downton, Wiltshire Sep 16, 2025 ([Issuewire.com](https://www.issuewire.com)) - UK Financial LTD today announced the listing dates on CATEX Exchange for the company's two wrapped tokens:

1. Wrapped Maya Preferred PRA Token (WMPRA) will be listed on the CAT.EX exchange on Wednesday, September 17, 2025.
2. Additionally, the Maya Preferred Retirement Plan Program Wrapped Token (RPWMPRA) will be listed on Friday, September 19, 2025.

UK Financial Ltd also announced that the board of directors has voted to immediately end the original 2019 agreement of backing Bitcoin with gold and also voted to transfer the entire amount of 21 million MPRA Tokens into the uk-financial-ltd-irrevocable-treasury-vault.eth to be used to fully Back MCAT with Gold & Silver. Once these 21M MPRA tokens are transferred, MCAT is poised to easily become the most valuable meme coin in the world, setting a new standard in the meme coin ecosystem. With the amount of real world assets behind MCAT and the magnitude in which it was accomplished, has raised the tokens book value overnight by thousands of percent.

When this transaction is fully executed this once small \$.05 cent presale meme coin will have a real book value of an amount that is more than its current trading value x 10,000. This Value makes MCAT Token price extremely undervalued, especially in today's market by far. MCAT proved that they accomplished this task basically overnight, unlike any other meme token

Gold Backing Transfer: The BOD has voted to cancel the previous 2019 agreement backing Bitcoin with gold and instead transfer the gold-backed asset tokens of Maya Preferred to back its own MayaCat

(MCAT) token. This move will make MCAT the world's first gold-backed meme token, potentially increasing its book value due to the value of the 21 million Maya Preferred PRA tokens and the gold and silver reserves backing them.

Key Details

MayaCat (MCAT) Token: Will become the first gold-backed meme token in the world upon completion of the transaction.

Gold and Silver

Reserves: The reserves are sourced from multiple gold and silver mines in Mexico.

Verification of Transaction: The wallet holding the Maya Preferred 223 security backing can be verified at Etherscan. (See Below)

Token Value: The value of MCAT is expected to increase due to the transfer of gold backing from Bitcoin.

Here is the original transfer of 21 million Maya Preferred 223 (MAPR) from then UK Financial Ltd's corporate wallet to the Bitcoins wallet that holds the backing, even to this day!!!!

This evidence provided by UK Financial Ltd proves that the transaction did happen; the wallet did receive the tokens on the backend, and the coins still sit there today untouched. The company feels that this is now indisputable evidence. This evidence confirms that the transaction happened back in 2019, and information about Maya Preferred came out on Coinspeaker, highlighting its connection to Bitcoin and gold.

MCAT, the first of its kind, a meme token that's not only securely backed by gold and silver reserves, but it's also backed by assets, including the token price of Maya Preferred PRA (MPRA). Meme token with Maya Preferred PRA, which is up over 588,000% since its inception and up 200,000% compared to the 2019 price of Maya Preferred 223 when the Bitcoin agreement was originally executed.

Maya Preferred Retirement Plan Program Wrapped Token (RPWMPRA)*

RPWMPRA is price pegged 1:1 to MPRA and has a verified contract address on Etherscan: (0x8a0e1804a55d64fB0157D7961f47EBCd535780f2).

Each RPWMPRA token equals ownership of MPRA/SMPRA at 400,000x leverage, meaning a \$1 price movement in MPRA/SMPRA equates to a \$400,000 change in RPWMPRA value.

MPRA tokens held under the Retirement Plan will be auto-converted to RPWMPRA at the set ratio. The listing of these wrapped tokens are part of the company's efforts to become fully compliant with the SEC for its ERC 3643 Security Token, Maya Preferred PRA Preferred Class Regulated Security Token (SMPRA).
