

Vanessa M. Chattman Unveils SPELLMARKED: A New Fantasy Novel Now Available on Amazon and Barnes & Noble

Houston, Texas Sep 2, 2025 ([IssueWire.com](http://www.IssueWire.com)) - Renowned, Acclaimed, horror novelist, author Vanessa M. Chattman, known for her supernatural horror and psychological thrillers, returns with a gripping new fantasy novel that blurs the line between reality and reflection. "SPELLMARKED", now available on Amazon, Barnes & Noble and Google Play Books, invites readers into a fractured city where magic is currency, identity is fluid, and destiny is anything but fixed.

Set in a gritty urban landscape teeming with secrets, SPELLMARKED follows Nyra, a streetwise thief who survives by pawning magical trinkets scavenged from the shadows. But when she steals a wand that reacts violently to her touch, Nyra unwittingly tears open a portal into a shimmering mirror world—a distorted echo of her own life. What she finds on the other side isn't just twisted magic, but a version of herself shaped by every suppressed impulse and unspoken fear.

“Nyra’s journey is about more than survival, Vanessa M.” Chattman explains. “It’s about confronting the parts of ourselves we hide and asking whether we’re defined by our choices—or by the shadows we refuse to face.”

In this mirror realm, time fractures, memories distort, and magic obeys no rules. Nyra’s “mirror twin” isn’t just a reflection—it’s a rival. As both versions battle for control, the stakes escalate beyond personal identity. The wand holds secrets tied to Nyra’s past, her lineage, and a prophecy that could reshape both worlds. With each step deeper into the glass, Nyra must decide: will she reclaim her destiny, or be consumed by it?

SPELLMARKED blends dark fantasy, and epic fantasy with psychological suspense, offering readers a richly layered narrative that explores themes of duality, power, and redemption. Fans of *The Mirror Visitor*, *Shades of Magic*, and *The Bone Season* will find themselves captivated by Vanessa M. Chattman’s supernatural horror novels, her new dark fantasy novel and cinematic world-building.
