Dubai, United Arab Emirates Sep 2, 2025 ([IssueWire.com](https://www.issuewire.com)) - Wahni IT Solutions, the most trusted ERPNext implementation partner in the UAE, to participate in the 45th edition of GITEX Global 2025, taking place in October 2025. Wahni will demonstrate ERPNext solutions in the UAE to businesses. At the GITEX Global 2025, businesses will get to know how the ERPNext solution can transform their businesses into a more efficient, transparent and connected operations.

About GITEX Global 2025

GITEX Global will take place from **October 13 to 17, 2025**, at the **Dubai World Trade Centre** and **Dubai Harbour**. Over **6,500 companies** from various industries will be showcasing the latest technologies across **AI, cybersecurity, sustainable tech**, and many other cutting-edge sectors.

GITEX Global is one of the biggest and most important technology events in the world where businesses, investors, and tech experts from all over the world come together.

Wahni IT Solutions: Helping Businesses Grow with ERPNext

To help different types of businesses in streamlining work tasks, Wahni IT Solutions is promoting **ERPNext**, a cloud-based smart system that helps businesses keep track of their products, make work easier, help customers better, and manage money from one place.

ERPNext is a flagship product from **Frappe Technologies Pvt Limited**, Mumbai India , a global leader in building Open-Source business software.

Wahni will show how different types of businesses can optimize inventory, automate workflows, improve customer relationships, and gain financial clarity from a single platform.

“We're really excited to be part of GITEX Global 2025 and Frappe Family,” said a representative of Wahni IT Solutions. “We are ready to show businesses why ERPNext is a powerful tool that makes business tasks simpler.”

Real Stories of Business Improvement with Wahni

Fashion Planet

Fashion Planet, a well-known clothing and online shopping brand, had trouble keeping track of their products and purchases. Everything was done by hand, which led to mistakes. Wahni helped them use ERPNext to connect their online store and physical shops. Now, their stock updates automatically, purchases are better organized, and everything runs more smoothly.

Pogliano BusBar

Pogliano BusBar, a company that builds big electrical systems, was facing difficulty in managing materials like copper and keeping projects on schedule. Wahni helped the business with ERPNext. Now, Pogliano BusBar is tracking copper consumption and managing the project easily.

MK Aluminum & Glass

Mohd Elkholy Aluminum & Glass, a company that makes glass and aluminum parts for buildings, was facing challenges to manage and track their inventory and other production steps. To help the company save time on this and manage production better, Wahni implemented ERPNext solutions.

Dubai Engineering (DECO)

Dubai Engineering was having trouble managing big projects because their old software was slow and caused mistakes. Wahni set up an [ERPNext](#) system that made tracking work, costs, and employee tasks and tasks like this easier to manage. Now, DECO can finish projects faster. In fact, employees said they experienced 70% to 80% relief from manual work.
