

Webdr Launches “AI Training for Executives” Program—Empowering Leadership with AI in Canada

Helping SMBs Prepare for the AI Future

Ottawa, Ontario Sep 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - **Webdr** (www.webdr.ca), a leading provider of **AI consultancy in Canada** and expert **Ottawa web design**, today announced the launch of its groundbreaking **AI Training for Executives** program designed to empower business leaders with actionable, AI-driven leadership skills.

This **AI Executive Training** program focuses on practical, hands-on learning tailored for senior executives. Participants engage in case studies, live workshops, and strategy simulations that drive immediate business value. With the accelerating demand for digital transformation, WebDR (Web Doctor) equips executives with essential AI competencies—from building AI-informed strategies to leading AI-powered teams.

“Executives don’t just need to understand what AI is—they need the confidence to lead their businesses with it,” said the CEO of WebDR. “Our program fills the gap between AI theory and real-world executive decision-making.” The training highlights how AI can streamline operations, elevate customer experiences, and fuel innovation.

Anchored in WebDR’s heritage of **Ottawa web design excellence**, the program blends sleek, user-centered design thinking with advanced AI strategy—a combination that stands out among **AI consultant Canada** offerings.

Key benefits of the **AI Executive Training** include:

- Strategy alignment, enabling leaders to integrate AI into core business models
- Enhanced decision-making via AI-driven data insights
- Practical project planning for AI adoption, supported by WebDR’s design and digital capabilities
