

A Son Donates Kidney to Save His Mother in Hubballi: Successful Transplant at Suchirayu Hospital

MY TREATMENT COST

Hubli, Karnataka Oct 4, 2025 ([IssueWire.com](https://www.issuewire.com)) - In a touching tale of love, sacrifice, and second chances, a young man in Hubballi has given his mother the most precious gift — the gift of life.

At Suchirayu Hospital, known for its routine and advanced transplant procedures, a successful kidney transplant was recently performed, with the son selflessly donating his kidney to save his mother, who had been battling chronic kidney disease and was on dialysis for 2 years. The life-saving procedure was led by renowned nephrologist and transplant physician **Dr. Shidram Kamate**, Urologists Dr Bhuvanesh, Dr Avinash, Dr Charan; whose expertise ensured a smooth and successful surgery.

This case was not easy as expected. Recipient's heart was weak(DCM , with EF 30% only). During surgery she had low BP which was managed effectively by a team of Anesthesiologists led by Dr Sagar. Post surgery she had persistent low BP and high irregular heart rate, which was managed effectively. Slowly and steadily her condition was improving. Her heart condition too improved(EF 50%). Both donor and recipients were discharged in a good health

- This emotional moment highlights the **gold standard of treatment for kidney failure — transplantation** — and the critical role of awareness around **organ donation**. Despite the challenges, stories like this one illuminate the path forward and inspire others to consider stepping up when it matters most.

“We’re seeing miracles happen through organ donation,” said Dr. Kamate. “But more awareness is needed. Kidney transplantation not only extends lives — it transforms them.”

As the mother recovers and the son earns the community’s admiration for his bravery, this story stands as a powerful reminder of the strength of family bonds and the life-changing impact of medical science.

Let’s celebrate this courageous son and wish his mother a full and speedy recovery!

Organ donation saves lives. Could you be someone’s hero?
