

Apparel Textile Sourcing Uzbekistan 2025 Opens with Chinese Textile Enterprises Making A Collective Appearance

Singapore, Singapore Oct 10, 2025 ([Issuewire.com](https://www.issuewire.com)) - From October 14 to 16, 2025, Apparel Textile Sourcing Uzbekistan 2025 will be held at the Tashkent UzExpoCentre. The event is based on three specialized exhibitions: Heimtextil Uzbekistan, Texworld Tashkent, and Apparelsourcing Tashkent. The three exhibitions authorized by Messe Frankfurt run concurrently at the same venue. By integrating resources across the entire home textile, fabric, and garment supply chain, the expo aims to introduce high-quality raw materials and finished products to Uzbekistan and Central Asia, thereby enhancing the region's global competitiveness.

As the most international textile exhibition in Uzbekistan with the strongest participation of Chinese enterprises, the event has attracted over 100 Chinese enterprises presenting under the unified image of "CHINA BRAND". The event is expected to draw more than 5,000 visitors from Uzbekistan, Pakistan, the UAE, Turkey, Russia, and other Central Asian countries.

In recent years, the Belt and Road Initiative has significantly enhanced economic and trade relations between China and Uzbekistan, leading to substantial achievements in cooperation. As the world's largest apparel producer and exporter, China brings a comprehensive industrial system supported by continuously improving technology and design capabilities. Located in the heart of Central Asia,

Uzbekistan enjoys a strategic geographical position. Meanwhile, its growing population and rapid urbanization are fueling rising demand for products such as clothing, bedding, curtains, carpets and other products. These factors create strong complementary potential for collaboration between the two countries.

Chinese exhibitors expressed high expectations toward accessing new markets through the event. Nantong Youmian Haochen offers high-quality, region-specific textiles to hotels worldwide and looks forward to expanding its local network in Uzbekistan. First-time participant Qingdao Yuling Shanjia is showcasing bedding and bath towels with the goal of securing new orders. Meanwhile, Zhejiang Huifeng New Materials will exhibit advanced production techniques such as composite printing and embossing. Also making its debut at the fair, Zhejiang Textiles Group, established in 1979, plans to introduce water-free dyeing technology and garments to the region while exploring diversified supply chain partnerships based on local resources.

Supported by MOFCOM China and hosted by China Chamber of Commerce for Import & Export of Textiles, the event is an important part of the expo authorized by Messe Frankfurt, which covers approximately 4,000 square meters and is expected that more than 250 exhibitors will participate.
