Valladolid, Yucatan Oct 7, 2025 ([IssueWire.com](https://www.issuewire.com)) - Valladolid, Yucatan – October 7, 2025 – Author Les Kiss is thrilled to announce the release of ***Love in the age of tomorrow***, a captivating blend of science fiction, and romance, released on Friday, September 12, 2025. This thought-provoking novel delves into the lives of Maya and Kaito, a couple navigating their relationship in the vibrant and bustling metropolis of Neo-Tokyo in the year 2100.

In a world characterized by breathtaking skyscrapers adorned with vertical gardens, autonomous drones ferrying daily necessities, and augmented reality interfaces enhancing human connections, *Love in the age of tomorrow* paints a vivid picture of how technology influences love and companionship. Maya and Kaito's journey unfolds in a smart apartment, where their AI assistant, Aiko, manages their lives, from scheduling their day-to-day activities to suggesting meals tailored to their nutritional needs.

"With *Love in the age of tomorrow*, I wanted to explore how love and technology intertwine in our lives, taking readers on a journey that sparks curiosity about the future," says Les Kiss. This novel invites readers of all ages—especially those fascinated by the concept of future relationships—to imagine what life could hold.

Available for purchase at <https://books2read.com/leskiss> and at all major book retailers, *Love in the age of tomorrow* is available in both ebook and paperback formats. Join Les Kiss on this exciting adventure that questions the nature of love in a rapidly changing world.
