About Avana Senior Care

Aging is not merely the passing of years, it's a profound chapter of life that deserves comfort, safety and purpose. Yet, in a fast-moving world, many families struggle to find a space where their loved ones can truly feel at home.

Born out of this very need, Avana Senior Care stands as a haven of comfort in Pune, a thoughtfully designed assisted and independent living community that redefines aging and writes a new chapter of wellness and harmony in India.

Founded by the visionary father-daughter duo, Sameer and Niharika Nagrani, Avana Senior Care is built on a shared dream, where Niharika's journey embodies a rare confluence of empathy, and purpose. Armed with a background in Health Administration from Mount Sinai Hospital, New York, USA and Senior Living Management from Cornell University, New York, USA. Niharika brings a global perspective to India's evolving senior care landscape. Her experiences across world-class eldercare ecosystems ignited a mission to redefine aging in India, not as a phase of quiet withdrawal, but as a renaissance of belonging and under her stewardship, Avana was built on one simple but powerful belief: that every senior deserves not just care, but a life filled with meaning, regard and delight which is

why Avana blends global standards of elder care with the warmth of Indian values, creating a space where world-class healthcare meets human connection.

At its core essence, Avana Senior Care is on a mission to enrich the lives of seniors through a nurturing blend of medical expertise, emotional support, and meaningful engagement. The vision is to become India's most trusted and loved senior care brand, where every elder feels seen, valued, and celebrated.

Because at Avana, aging is not about slowing down.
It's about the art of living, being painted in golden hues, every single day.
