

## Bladder & Bowel Institute Welcomes Dr. Andrew Franklin as Locum Tenens Urologist at BBI Texas and BBI Arkansas

**Harrison, Arkansas Oct 7, 2025 ([IssueWire.com](https://www.issuewire.com))** - Bladder & Bowel Institute is pleased to welcome Dr. Andrew Franklin, MD, who will be providing locum tenens coverage at BBI Texas and BBI Arkansas locations beginning this Fall. Dr. Franklin will serve as an integral extension of the clinical team, ensuring continued access to high-quality care for patients.

Dr. Franklin is a board-certified urologist with a strong procedural background and a distinguished clinical and academic career. A graduate of Baylor University, he earned his Doctor of Medicine from the University of Missouri – Columbia School of Medicine and completed both his general surgery internship and urology residency at the University of Missouri Hospitals and Clinics.

With experience spanning both civilian and military medicine, Dr. Franklin previously served as a Staff Urologist and Major in the United States Air Force at David Grant Medical Center, Travis Air Force Base. He most recently practiced at Asheville Urological Associates in North Carolina and currently provides locum tenens coverage at hospitals and surgery centers across multiple states.

Dr. Franklin brings advanced expertise in minimally invasive procedures, including sacral neuromodulation, and has presented research at national and international conferences such as the Société Internationale d'Urologie and the American Society of Clinical Oncology's Genitourinary Cancers Symposium. His clinical research has also been published in the *World Journal of Urology*.

"Dr. Franklin's deep procedural knowledge and commitment to patient-centered care make him an ideal addition to our team," said Dr. Chris Taylor, Founder and Medical Director of Bladder & Bowel Institute. "His presence will enhance our ability to provide consistent, high-quality outcomes for patients across all locations."

Based in Asheville, NC, Dr. Franklin enjoys spending time outdoors with his family. He is also passionate about mission-based care and has participated in international medical service efforts, including work in Peru.

Dr. Franklin's addition reflects Bladder & Bowel Institute's continued commitment to expanding access to expert care and ensuring exceptional outcomes for patients suffering from bladder and bowel control problems.
