

Caribbean Hall of Excellence - Celebrating our Legacy

Caribbean Global Awards and Institute Unveils Prestigious 2025 Inductees

London, England Oct 15, 2025 ([IssueWire.com](https://www.issuewire.com)) - The Caribbean Hall of Excellence announces its distinguished 2025 class of inductees, honouring visionaries whose ground-breaking legacies continue to illuminate the path of resilience, unity, and global influence across the Caribbean and beyond. This year's cohort celebrates the founding figures who laid the foundations of island nations, barrier-breakers who shattered systemic obstacles, relentless architects of independence, steadfast peacemakers who fostered harmony amid turmoil, and multicultural icons whose talents have transcended borders to

inspire the world. Drawing from the rich tapestry of Caribbean history—still being chronicled and expanded—these honourees reflect the indomitable spirit that turned archipelagos into beacons of progress. Their stories remind us that excellence is not inherited but forged through courage, innovation, and an unyielding commitment to collective advancement. The 2025 Inductees includes the: Founding Figures of the Caribbean Islands, Those Who Broke Barriers, Pursued Independence, Peacemakers, Caribbean Global Leaders (with a legacy of leadership spanning over 15 years), Global Multicultural Icons.

“These luminaries stand as the architects of our collective story—visionaries who have built nations from the remnants of colonialism, broken the chains of oppression, and woven the Caribbean’s radiant mosaic into the fabric of the global human journey,” said Dr. (H.C.), Sole Founder and Chair of the Caribbean Hall of Excellence. “In an age often defined by division, their enduring legacies call us to honour our shared brilliance and to shape a future where every island’s light shines ever brighter—together.” We are extremely proud to honour Prime Minister Gonzales of St. Vincent and the Grenadines in the distinguished category of Caribbean Global Leaders, recognising his over 15 years of transformative leadership and service and Dr Andre Cropper from Trinidad and Tobago who invented a flat panel display touch screen using OLED technology, which is made from thin layers of diamond.

The induction ceremony, scheduled for June 5th, 2026, at Caribbean Global Awards in New York, will convene regional leaders, artists, and international dignitaries for a night of tributes, live performances, and interactive exhibits highlighting the inductees’ enduring impact.

Attendees can expect electrifying renditions of Bob Marley’s and Sonny Roberts anthems, dramatic readings from Naipaul and Walcott’s verses, and dialogues on modern applications of these pioneers’ wisdom. This living roster will continue to evolve, inviting nominations to honour emerging trailblazers and deepen the chronicle of Caribbean greatness.
