

Codevian Expands with Drupal, AI/ML, and Salesforce Services to Drive Global Digital Transformation

Empowering enterprises with scalable, intelligent, and customer-centric digital solutions.

Freeport, New York Oct 10, 2025 ([IssueWire.com](https://www.issuewire.com)) - Codevian Technologies, a leading global IT solutions provider, today announced the expansion of its service portfolio with the launch of [Drupal Development Services](#), [AI/ML Solutions](#), and [Salesforce Development Services](#). This strategic move marks another milestone in Codevian's mission to empower enterprises worldwide with robust, scalable, and intelligent digital transformation capabilities.

Driving Business Agility Through Drupal, AI/ML, and Salesforce Expertise

With a decade of delivering impactful digital solutions, Codevian Technologies continues to strengthen its expertise across the world's most powerful technology ecosystems. The addition of **Drupal**, **AI/ML**, and **Salesforce** capabilities allows organizations to accelerate growth, streamline operations, and create more personalized customer experiences.

"Our goal is to be the trusted technology partner for modern enterprises," said the CEO of Codevian Technologies. "By integrating Drupal for scalable digital experiences, AI/ML for intelligent automation, and Salesforce for customer success, we are enabling organizations to build smarter, data-driven, and future-ready business models."

Empowering Enterprises with Drupal Development Services

Codevian's **Drupal Development Services** empower enterprises to build secure, scalable, and content-rich digital experiences. From custom module development and API integrations to headless Drupal implementations, the company helps clients enhance their digital presence with seamless, enterprise-grade solutions.

"With our expertise in Drupal development, we're helping businesses move beyond traditional CMS capabilities—toward unified, omnichannel experiences that drive engagement and conversions," added the CEO.

Accelerating Innovation with AI and Machine Learning Solutions

As artificial intelligence and machine learning redefine business innovation, Codevian Technologies is equipping global organizations with AI-driven tools to transform data into actionable intelligence. The company's **AI/ML services** enable predictive analytics, automation, and decision intelligence that foster operational efficiency and innovation.

"At Codevian, our AI/ML expertise helps organizations harness their data potential. From predictive modeling to natural language processing, we're delivering solutions that bring real, measurable business outcomes," said the CEO.

Transforming Customer Experiences with Salesforce Development Services

Through its **Salesforce Development Services**, Codevian Technologies empowers businesses to leverage the full potential of the Salesforce ecosystem. From CRM customization and automation to Lightning and API integrations, Codevian's certified experts deliver solutions that enhance productivity and customer engagement.

"Our Salesforce solutions help organizations build stronger relationships, streamline workflows, and unlock a 360° view of their customers," said the CEO. "We're enabling enterprises to transform data into meaningful customer connections."

A Decade of Trust and Global Impact

Founded in 2018, Codevian Technologies began with a simple vision — to create meaningful digital solutions that drive measurable impact. Over the years, it has evolved into a **global digital powerhouse**, offering services across mobile and web development, AI/ML, Salesforce, Drupal, and staff augmentation.

With clients across multiple continents and industries, Codevian continues to deliver excellence in innovation, scalability, and reliability.

Looking Ahead: Expanding Digital Horizons

Codevian Technologies aims to strengthen its global reach by enhancing its product innovation pipeline, expanding into new markets, and investing in advanced technologies. The company is committed to being a long-term digital transformation partner for enterprises worldwide.
