Glen Ellyn, Illinois Oct 16, 2025 (Issuewire.com) - For more than a decade, Compare Transport LLC has been the driving force behind countless successful freight movements across the United States and Canada. The company began its journey by assisting carriers and businesses with freight brokerage, oversize/overweight permit assistance, and specialized transport coordination. Today, it stands tall as a DOT-licensed and FMCSA-authorized carrier, combining the strength of a freight broker with the

dependability of a fleet owner.

A Single Source for All Logistics Needs

This milestone marks a major evolution for Compare Transport LLC — transforming it into a one-stop logistics partner for shippers nationwide. The company now operates with its own fleet of trucks and leased operators, offering a full range of transportation services, including:

- Full Truckload (FTL) and Less-than-Truckload (LTL) freight
- Oversize and Overweight hauling
- Cross-border shipping between the U.S. and Canada
- Permit management and route planning

By maintaining in-house control over equipment and drivers, Compare Transport LLC ensures a higher level of accountability, communication, and on-time performance—all while maintaining competitive pricing for its clients.

Safety, Compliance, and Innovation at the Core

Approved by the Department of Transportation (DOT) and recognized as a defense-approved broker, Compare Transport LLC operates under strict compliance and safety standards. Every shipment is covered by full cargo insurance, including government and military freight, ensuring complete peace of mind for every customer.

“Our journey from freight broker to fleet operator represents more than growth—it reflects our mission to serve customers with greater efficiency, transparency, and reliability,” said a spokesperson for Compare Transport LLC. “By owning our trucks and working directly with skilled operators, we’ve created a seamless bridge between brokerage flexibility and carrier control.”

Technology-Driven Freight Solutions

Compare Transport LLC integrates advanced dispatching systems and real-time tracking tools to manage routes, permits, and deliveries with precision. Whether it’s a heavy haul through challenging terrain or time-sensitive LTL cargo, every shipment is handled with professionalism and care from pickup to delivery.

With operations spanning across all 50 U.S. states and Canadian provinces, Compare Transport LLC continues to empower businesses with smart logistics strategies—from customized freight planning to 24/7 support and permit coordination.

About Compare Transport LLC

Compare Transport LLC is a licensed and insured trucking company, freight broker, and permit service provider headquartered in Chicago, Illinois. Established in 2018, the company has built a solid reputation for reliability, affordability, and professionalism in transportation and logistics.

With a growing fleet of trucks, experienced drivers, and nationwide coverage, Compare Transport LLC offers FTL, LTL, oversize/overweight, and cross-border freight services. The company is fully DOT-approved and defense-recognized and operates with full cargo insurance, handling both commercial and government loads safely and efficiently.
