

Discover the Exquisite 3.50ct Marquise Diamond and Perfectly Matched Band

Where Dramatic Size Meets Artistic Design

London, United Kingdom Nov 1, 2025 ([IssueWire.com](https://www.issuewire.com)) - Unprecedented Elongation and Size: The centerpiece is an extraordinary 3.50ct Marquise Cut Diamond, which is known for its bright color and the ability to maximize the weight of the carat. This dramatic shape gives a unique look to the hand, making it immediately a piece of pronounciation.

The Perfect Partnership: Marquise-on-Marquise: The design acquires comfortable harmony by combining a specially designed Marquise Solitaire with a specially designed Marques band. The band stones are carefully in line, reflecting the shape of the diamond in the center, a unified, long appearance formed as floats without any interruption.

Artistic Design and Craftsmanship: This set represents the pinnacle of Layla Diamond's artistry. The setting is engineered to enhance the marquise shape, providing maximum light return while ensuring the stone is secure. The overall design masterfully blends the drama of the size with an elegant, refined aesthetic.

Hand-Flattering Visual Impact: The unique, pointed shape of the marquise cut, combined with the impressive carat weight, creates a highly desirable **slimming and lengthening effect** on the wearer's finger, a key selling point for those seeking both size and flattering style.

Exclusive Layla Diamond Masterpiece: This piece is more than an engagement ring; it's a legacy item. As an exclusive offering from Layla Diamond, it is designed for the client who demands a bespoke, high-impact bridal set that stands apart from traditional round or princess cuts.
