

DynamoEdge and The Carbon Sink Announce Strategic Partnership

To Transform Industrial Decarbonization with AI-Driven Carbon Solutions

Carmel, Indiana Oct 16, 2025 ([Issuewire.com](https://www.issuewire.com)) - **DynamoEdge**, a pioneer in AI-powered industrial intelligence, and **The Carbon Sink**, a leading commercialization agency of carbon certificates, today announced a strategic partnership aimed at accelerating the global transition to a low-carbon economy.

Through this collaboration, the two companies combine **DynamoEdge**'s advanced AI platform, which

enables **real-time optimization of industrial operations** to significantly **reduce Scope 2 and Scope 3 emissions** and **generate carbon certificates in real-time**, with **The Carbon Sink's** expertise in **high-quality carbon projects and carbon certificates trading**, proving a full solution to the market.

By leveraging **DynamoEdge's AI-driven technology**, industries will be able to measure, predict, and improve energy efficiency, logistics, and supply chain impacts with unprecedented accuracy. The **verified reductions** achieved through these optimizations will be captured and monetized through **The Carbon Sink's market-leading carbon certificate platform**, ensuring transparency, credibility, and global reach.

"Our AI is designed to transform industrial operations, making sustainability measurable and actionable in real time," said Lorena Pirona, Head of Sustainability of DynamoEdge. **"The verified results can be converted into carbon credits certified by third parties and made available to the global market through The Carbon Sink, creating a powerful end-to-end solution."**

"This partnership unites technology and sustainability," said Federico Falcon, Co-Founder of The Carbon Sink. **"Together with DynamoEdge, we will empower industries not only to meet compliance requirements but also to unlock new value from their sustainability strategies."**

The partnership will initially focus on heavy industry, energy, and logistics sectors, where **Scope 2 and Scope 3 emissions** represent the largest challenges and opportunities. Customers will benefit from turnkey access to:

- AI-driven emissions optimization across operations and supply chains
 - Verified carbon certificates to support compliance and voluntary commitments
 - Direct participation in carbon projects that deliver long-term climate impact

Together, **DynamoEdge** and **The Carbon Sink** set a new standard for industrial decarbonization—uniting cutting-edge technology with market mechanisms to drive both **sustainability and profitability**.

About The Carbon Sink

The Carbon Sink develops and distributes high-quality carbon projects and certificates, enabling organizations to offset and reduce their emissions with confidence. With a global network of partners and a commitment to integrity, The Carbon Sink is advancing climate action worldwide.

About DynamoEdge

DynamoEdge is an AI technology company that delivers real-time intelligence to optimize industrial and operational performance. Its platform addresses Scope 2 and Scope 3 emissions by unlocking efficiencies across energy use, logistics, and supply chains, driving measurable sustainability outcomes.
