

EPL and Spirit of Math Partner to Bring International Spirit of Math Contest to Costa Rica for 2025-26 School Year

North York, Ontario Oct 15, 2025 ([IssueWire.com](https://www.IssueWire.com)) - [EPL](#) and [Spirit of Math](#) are thrilled to announce an exciting collaboration that will bring the International Spirit of Math Contest to Costa Rica for the 2025-26 school year.

The partnership is a continuation of Spirit of Math's unwavering commitment to promote co-operation, inspire confidence and release the genius in every child all around the world. This collaboration will give Costa Rican students the opportunity to showcase their abilities on an international stage, while growing their confidence and skills which they will need for future success.

"At Spirit of Math, we are dedicated to revolutionizing education for students everywhere," said Kim Langen. "We are excited to support EPL in their mission to cultivate young talent and help students realize their greatest potential."

EPL, a pioneering educational services company based in San José, Costa Rica, has been transforming student success across Central America since 2002. As the region's first test-prep and university admissions firm, EPL has guided thousands of students through the complexities of standardized testing, academic counseling, and global university applications. With a deep commitment to personalized support and academic excellence, EPL empowers students to reach their highest potential and pursue opportunities at top institutions around the world.

Through its new partnership with Spirit of Math, EPL is expanding its impact by introducing the Spirit of Math Contest to students in Costa Rica and the broader region. This collaboration offers high-achieving learners a unique opportunity to engage with advanced mathematical challenges and benchmark their skills on an international scale. Together, EPL and Spirit of Math are opening new pathways for academic growth, global connection, and the development of future leaders in mathematics.

The partnership is one of many collaborations Spirit of Math is undertaking with international organizations to bring the International Spirit of Math Contest to every corner of the world. Competitive events such as these offer children an excellent opportunity to develop important skills such as analysis, problem solving and critical thinking. They also get the personal satisfaction (and motivational boost) of tackling and conquering some of the hardest questions.

About EPL

Founded in 2002 in San José, Costa Rica, EPL is the first test-prep and university admissions company established in Central America. Dedicated to supporting students through every stage of the test preparation, counseling, and application process, EPL has helped countless learners from Costa Rica and across the Americas achieve their educational and professional goals. With a focus on excellence, guidance, and global opportunity, EPL continues to lead the way in academic advancement throughout the region.
