

Everlasting Smiles: William Ma DMD Brings Breakthrough Pinhole Gum Rejuvenation® to Palm Beach Gardens

Certified by Dr. John Chao, the inventor of the Pinhole Surgical Technique®, Dr. Ma and his Everlasting Smiles team now offer this patented, gentle, one-visit solution for receding gums — with no stitches, no scalpels, and minimal downtime.

Palm Beach Gardens, Florida Oct 9, 2025 ([Issuewire.com](https://www.issuewire.com)) - Patients struggling with receding gums now have a gentle, one-visit solution. Dr. William Ma and his team at **Everlasting Smiles** are proud to offer the **Pinhole Gum Rejuvenation®** procedure — a minimally invasive breakthrough that can restore a healthy, youthful gumline without scalpels or stitches.

Dr. Ma and three members of his staff, including the office hygienist, are personally certified in the **Pinhole Surgical Technique®**, developed and patented by Dr. John Chao. The Everlasting Smiles team completed hands-on training with Dr. Chao himself in Pasadena, CA — making them among the few dental professionals in Palm Beach Gardens qualified to perform this innovative procedure.

“Gum recession affects nearly half of all adults,” said [Dr. Ma](#), founder of Everlasting Smiles. “The Pinhole Gum Rejuvenation® technique allows us to correct that problem comfortably and predictably — helping patients protect their teeth and feel confident about their smiles again.”

Unlike traditional gum-grafting surgery, which requires incisions and lengthy recovery, the [Pinhole Surgical Technique®](#) involves creating tiny entry points in the gum tissue, then gently repositioning it to cover exposed roots. Patients typically experience minimal discomfort and see instant cosmetic improvement.

Dr. Ma has even performed the procedure on members of his own team. “It’s rewarding to provide care we trust enough to use ourselves,” he shared.

Comprehensive Dental Care That Supports Working Patients

Beyond advanced cosmetic dentistry, [Everlasting Smiles](#) also partners with patients who have

suffered work-related injuries or dental trauma. The practice gladly works within the **workers' compensation fee schedule**, ensuring patients receive necessary treatment without delay or stress. If Dr. Ma determines that a dental condition is job-related, he provides the written opinions and documentation required to support workers' compensation claims — helping patients recover and return to work as quickly as possible.

Schedule a Consultation Today

Gum recession won't reverse on its own — but expert treatment can stop it in its tracks. Whether you're concerned about sensitive teeth, "long teeth," or a changing smile line, Dr. Ma and his certified team can help rejuvenate your gums in a single visit.

Call **Everlasting Smiles** today to schedule your **Pinhole Gum Rejuvenation®** consultation and learn how this modern approach can protect your oral health for years to come.
