

Founder Atharva Jaiswal Shares a Bold New Vision for the Future of AI-Powered Business Automation

Dragomagte unveils its next-generation AI automation strategy, empowering global businesses to achieve smarter, faster, and more scalable operations.

Indore, Madhya Pradesh Oct 28, 2025 ([IssueWire.com](https://www.issuewire.com)) - Early-stage technology startup **Dragomagte** has announced its visionary roadmap to redefine business automation through **AI-powered intelligent systems**. Founded by **Atharva Jaiswal**, Dragomagte aims to transform how organizations across industries utilize artificial intelligence to streamline workflows, enhance decision-making, and achieve operational excellence.

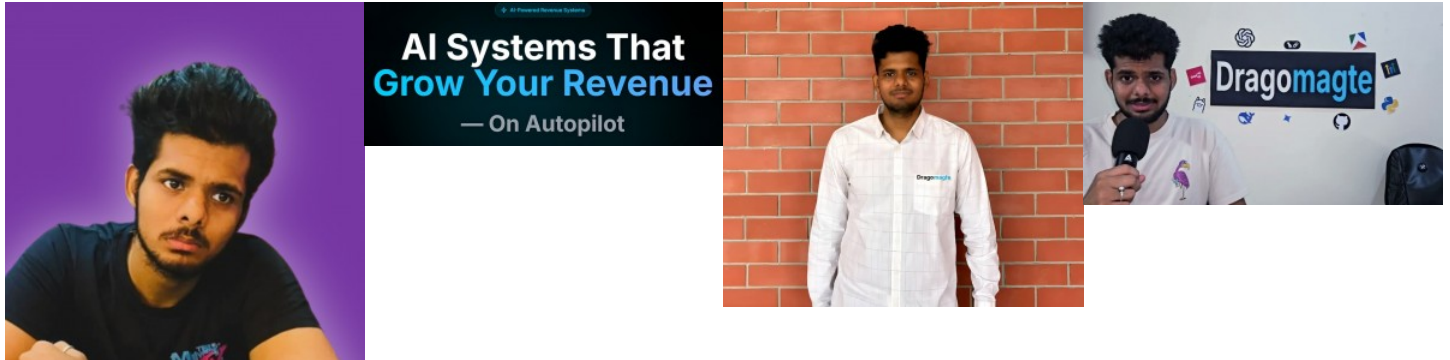

“At Dragomagte, we believe automation is more than just efficiency—it’s about enabling intelligence that scales with businesses,” said **Atharva Jaiswal**, Founder and CEO of Dragomagte. “Our goal is to make AI accessible and adaptable for companies of all sizes.”

Dragomagte’s innovative platform integrates machine learning, natural language processing, and predictive analytics to deliver smart, data-driven automation solutions. By leveraging adaptive AI models, the company seeks to bridge the gap between complex enterprise systems and everyday

business needs.

The startup's research and development team is focused on building an ecosystem that supports **secure, scalable, and future-ready AI automation tools**. With its early success in prototype testing, Dragomagte is positioning itself as one of India's most promising AI startups.
