

Global Lifelines Cleaning Services Achieves Safe Contractor & SSIP Recertification With Zero Non-Conformities.

Global Lifelines Cleaning Services, continues to set benchmarks for safety, sustainability, and operational excellence across commercial and public-sector cleaning.

Manchester, United Kingdom Oct 28, 2025 ([Issuewire.com](https://www.issuewire.com)) - Global Lifelines Cleaning Services (GLCS) has successfully renewed its SafeContractor and Safety Schemes in Procurement (SSIP) accreditations with zero non-conformities, reaffirming its commitment to health and safety excellence, risk management, and compliant service delivery across education, construction, and facilities-

management sectors.

The independent audit assessed Global Lifelines Cleaning Services procedures and records in key operational areas, including risk assessments, COSHH control, staff training, incident reporting, insurance verification, subcontractor oversight, and environmental management. Passing without corrective actions demonstrates the company's mature safety culture and operational discipline.

"Zero non-conformities is the standard we aim for and achieve," said Ms. Favour Michael, Health & Safety Coordinator at Global Lifelines Cleaning Services. "For our clients, it means lower risk, faster onboarding, and confidence that every operative works to verified procedures."

Why It Matters to Clients and Partners

SSIP recognition streamlines PQQ/SQ checks for public-sector and construction frameworks.

Evidence-based RAMS and COSHH procedures reduce operational risk.

Regular training and toolbox talks maintain BICSc-aligned competence.

Digital reporting ensures transparency and auditable compliance.

According to the UK Health and Safety Executive (HSE), inadequate risk assessments and control measures account for nearly a third of workplace accidents each year. Achieving recertification with zero non-conformities reinforces Global Lifelines Cleaning Services alignment with HSE best practice achieved while supporting more than 100 active client sites and maintaining over 1,000 safe working days without a reportable incident.

Audit Scope & Community Impact

The audit verified Global Lifelines Cleaning Services governance systems, staff competency programmes, equipment safety, and environmental controls, meeting principal contractor thresholds for safety management.

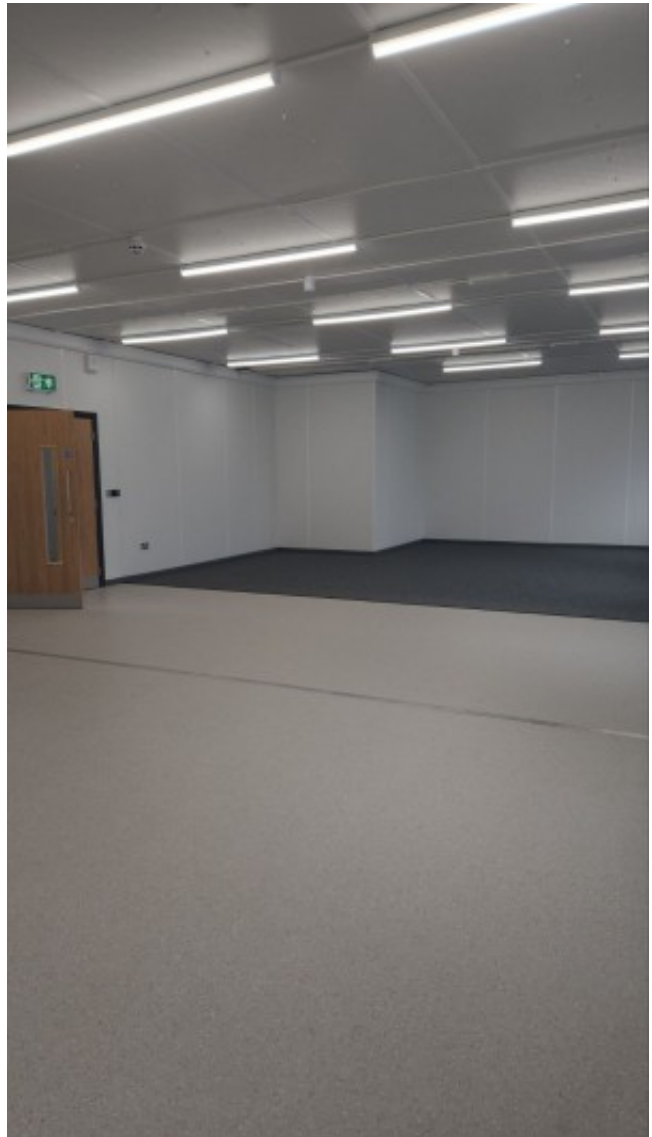

The company continues to work with local authorities, schools, and contractors across Manchester, Cheshire, Merseyside, Wigan, and St Helens and across the North-West on major contracts, supporting safer workplaces and cleaner facilities through structured compliance and sustainable cleaning standards.

The company also integrates eco-labelled products and waste-minimisation practices, aligning with regional sustainability goals and the UN Sustainable Development Goal 12 (Responsible Consumption and Production).

About Global Lifelines Cleaning Services

Global Lifelines Cleaning Services is a provider of commercial cleaning solutions across Greater Manchester, Bolton, and surrounding areas. The company delivers services for offices, schools, Multi-Academy Trusts (MATs), post-construction projects, housing providers, healthcare, and hospitality sectors. Global Lifelines Cleaning Services follows structured training and compliance-led processes, including SafeContractor/SSIP-accredited health and safety systems, advocating safe and eco-conscious methods to maintain clean and healthy indoor spaces for businesses, public bodies, and

property managers.
