

Hardtwood Custom Woodworks Completes Bespoke South Hampton Installation Featuring Custom Walnut and White Oak Tables

Project showcases handcrafted hardwood furniture and sustainable design, in collaboration with [Bestcase.co](#).

Southampton, New York Oct 12, 2025 ([IssueWire.com](https://www.issuewire.com)) - Hardtwood Custom Woodworks, a New York-based manufacturer of premium hardwood furniture and architectural surfaces, has completed a bespoke installation for a private residence in South Hampton, NY. The project features a hand-finished walnut dining table and a custom outdoor white oak table, both designed in collaboration with Charles at Bestcase.co.

The indoor centerpiece includes a sculptural ribbed base engineered by Bestcase and a handcrafted walnut top finished with Hardtwood's 100% VOC-free hardwax oil. The result balances modern architecture with timeless woodworking craftsmanship. Outdoors, a custom white oak base paired with a precision-fabricated metal top extends the design language seamlessly into the exterior living space.

"Every detail was considered—from the wood selection and finish to the proportion of the base and top," said Kevin Reinhardt, founder of Hardtwood Custom Woodworks. "This project reflects our approach to design: timeless materials, modern craftsmanship, and collaboration between artisan and architect."

Each piece was fabricated and finished in Hardtwood's New York workshop using sustainably sourced hardwood. The company specializes in custom tabletops, countertops, and shelving for residential and commercial spaces nationwide.
