

iBlackAI™ 2.0 Launches: The First Fully Automated AI Creative Suite

iBlackAI™ 2.0 sets a new benchmark for creative automation, merging AI-powered image, video, voiceover, faceswap and avatar generation into a single seamless platform.

Dallas, Texas Oct 16, 2025 ([IssueWire.com](https://www.issuewire.com)) - iBlackAI™ 2.0 Launches: The First Fully Automated AI Creative Suite

iBlackAI™ the all-in-one AI creative hub, announces the official relaunch of its platform with the release of iBlackAI™ 2.0, a major step forward in the future of creative technology. Built with automation at its core, iBlackAI™ 2.0 is not just another AI tool—it is the first fully automated AI creative suite, designed to give creators everything they need in one place.

A Complete Creative Ecosystem

Unlike piecemeal solutions, iBlackAI™ 2.0 delivers the entire creative stack in one platform:

- AI Image Generation (art, portraits, products, and more)
- AI Video Creation (animations, reels, ad content)
- AI Avatars & Faceswap (hyper-realistic customization)
- AI Prompt Assistant 1.0 (smart prompt generator to guide results)
- AI Voiceovers & Sound (powered by ElevenLabs-level tech)

- Photo Studio & Image Editing (background removal, retouching, filters)
- 100+ Pre-made Prompts & Templates (to get started fast)
- 24/7 AI Chatbot Support

Automation Behind the Scenes

What makes iBlackAI™ stand apart is not only its breadth of tools, but also its fully automated back-end. Powered by custom AI agents, iBlackAI™ runs daily research, data syncing, campaign scheduling, analytics, and reporting without human intervention. This automation frees the company's team to focus entirely on improving customer creativity, ensuring faster rollouts, smoother operations, and better insights.

Jerrell, iBlackAI's Founder & CEO, explains:

"You don't buy car doors from one place, the steering wheel from another, and the seats from a third. You get the whole car in one. iBlackAI™ 2.0 is the same idea—we've bundled the full creative experience together."

Why Now?

The AI landscape has become crowded with specialized tools that require juggling multiple apps and subscriptions. iBlackAI™ cuts through the noise by offering one unified platform that saves time, money, and effort for creators, businesses, and agencies.

"All the technologies exist now—so why string people along? At iBlackAI™, we believe it's only fair to deliver everything users need today, not years from now," adds Jerrell.

Looking Ahead

With the launch of iBlackAI™ 2.0, the company has set ambitious goals:

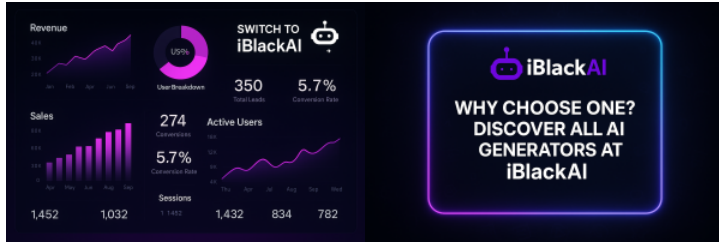

- Grow to 200+ subscribers by the end of 2025
- Achieve \$10K+ monthly recurring revenue (MRR)
- Position itself as the #1 alternative to MidJourney and Adobe Firefly

About iBlackAI™

iBlackAI™ is the first fully automated AI creative suite, offering creators, businesses, and agencies a unified platform for image generation, video, avatars, faceswap, voiceovers, photo editing, and more. Founded by Jerrell, iBlackAI™ was built with the belief that creators deserve all tools under one roof—not piecemeal apps. With AI agents automating the back-end, iBlackAI™ focuses entirely on delivering creative power to its users.

Core Values: Representation | Accessibility | Creativity | Innovation | Community | Excellence
