

Jeffrey Wing, MSN, RN, Advances Internal Medicine Research at Washington University in St. Louis

Experienced Nurse Coordinator & Emergency Room Nurse Combines Clinical Expertise, Research, and Leadership to Improve Patient Outcomes

St. Louis, Missouri Oct 9, 2025 ([Issuewire.com](https://www.issuewire.com)) - Jeffrey Wing, MSN, RN, serves as Internal Medicine Research Nurse Coordinator II at Washington University in St. Louis and as an Emergency Room Nurse for SSM Health, where he leverages his extensive nursing experience to support cutting-edge clinical research and clinical excellence to ensure patient safety and positive outcomes. With a background in emergency medicine, leadership, and compliance, Jeffrey brings a multifaceted skill set to his roles, focusing on evidence-based practice, clinical oversight, risk mitigation, and quality improvement initiatives.

Jeffrey earned his Master of Science in Nursing (MSN) from Southern Illinois University Edwardsville and his Bachelor's degree in Nursing from Drexel University. His academic and professional foundation has equipped him with the knowledge and skills needed to manage complex research protocols, monitor data integrity, and implement best practices that enhance both patient care and research outcomes. He is recognized for his ability to make high-stakes clinical decisions while mentoring colleagues and ensuring adherence to rigorous regulatory and quality improvement standards.

In his role at Washington University, Jeffrey coordinates internal medicine research studies, overseeing patient enrollment, data collection, and protocol compliance. He collaborates closely with Principal Investigators, research staff, and clinical teams to maintain accurate documentation and monitor safety outcomes. As an Emergency Room Nurse, he supports evidence-based interventions that drive improvements in patient care. In both roles, his work supports the rigorous implementation of policy compliance, risk reduction and quality assurance with a sustained and dedicated focus on clinical excellence and ethical standards of care.

Drawing on his clinical experience as an Emergency Room Nurse, Jeffrey integrates practical insights into his research position to strengthen clinical decision-making and translate evidence into frontline patient care. His combined involvement in clinical practice and research enables him to provide impactful mentorship, support professional development, and contribute to the advancement of quality care through evidence-based practices.

Jeffrey Wing's commitment to patient-centered care, clinical excellence, and rigorous research underscores his impact on both the healthcare and academic communities. By integrating leadership, mentorship, and clinical expertise, he contributes to advancing nursing practice while improving patient outcomes in St. Louis and beyond.
