

JSX Enhances Screening Security with Acquisition of LINEV Systems BV 5030 Baggage Scanners

Dallas, Texas Dec 3, 2025 ([Issuewire.com](https://www.issuewire.com)) - JSX, an innovative air carrier known for its seamless travel experience and traveler-first approach, has improved its already robust, federally mandated Aviation Security Program and commitment to customer and employee safety by purchasing [BV 5030 baggage scanner](#) units for its operations from [LINEV Systems](#), a global leader in [advanced X-ray imaging technology](#).

The BV 5030 units will be deployed across JSX terminals nationwide to improve the efficiency and accuracy of passenger baggage screening. These compact, high-resolution X-ray systems are optimized for small parcel and carry-on inspection, offering enhanced threat and weapons detection through LINEV's proprietary A-EYE® artificial intelligence technology, which assists operators in identifying potential threats faster and with greater accuracy.

"We're proud to support JSX in their mission to provide secure and seamless travel," said Paul Rivello, Vice President of Sales at LINEV Systems. "The BV 5030 is specifically designed to deliver high-performance screening in fast-paced environments, making it an ideal fit for JSX's private terminal model."

The BV 5030 delivers precise imaging and intuitive operation, enabling security personnel to identify prohibited and potentially dangerous items quickly and effectively. Powered by A-EYE®, the system

automatically highlights suspicious shapes and materials to support rapid decision-making. Its compact footprint makes it ideal for deployment in JSX's private terminal environments, where space and speed are both critical factors.

This strategic investment underscores JSX's dedication to innovation, simplicity, and operational excellence as it continues to grow its presence across the US.

About LINEV Systems

Founded in 2006, [LINEV Systems US, Inc.](#) is an innovative technology company specializing in the provision of [advanced X-ray screening](#) and analytical solutions. As the exclusive source for LINEV products in the US, Canada, Mexico, and Latin America, the company serves a diverse range of industries, including security, non-destructive testing, and scientific research. With a focus on innovation and quality, LINEV Systems US, Inc. is dedicated to enhancing safety and efficiency across various sectors.
