

K2 Electric Expands Residential Electrician Services Across Northern New Jersey

Bergen County, New Jersey Oct 8, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Offering Panel Upgrades, EV Charger Installations, Generators, Lighting, and Repairs

K2 Electric, a trusted licensed residential electrician serving New Jersey homeowners, is proud to announce its expansion into Northern New Jersey communities — including Wayne, Franklin Lakes, Mahwah, Montclair, and the surrounding towns.

The company now offers a complete range of electrical services for homeowners, including panel upgrades, EV charger installations, standby generator systems, and general electrical repairs and lighting installations.

“We always aim to deliver on-time, high-quality electric work every time you call,” said Todd Sherlock, owner of K2 Electric. “Whether it’s replacing an outdated panel, installing your new EV charger, or wiring a home addition, our focus is safety, reliability, and total customer satisfaction.”

Expanding to Meet Growing Electrical Needs

K2 Electric’s expansion comes as demand for home electrical modernization rises across Northern New Jersey. The company’s team of licensed electricians specializes in:

Electrical panel upgrades & load management for older homes

EV charger installations for Tesla, Rivian, and all major vehicle brands

Backup generator systems to protect homes from outages

Lighting and fixture upgrades to enhance comfort and efficiency

Troubleshooting & repairs done safely and up to code

“K2 Electric replaced our old 100-amp panel with a 200-amp upgrade and added an EV charger in one day — clean, professional, and done right,” said Mike R. of Montville, NJ. “They’re the only electricians I call now.”

Why Homeowners Choose K2 Electric
