

Magic Pest Control Announces Major Service Expansion Across Brisbane

Brisbane Company Launches Innovative Green Pest Control Services to Protect Families and Environment

Brisbane, Queensland Oct 8, 2025 ([Issuewire.com](https://www.issuewire.com)) - Magic Pest Control today announced the launch of its new eco-friendly pest management program, offering Brisbane homeowners and businesses advanced green solutions that effectively eliminate pests while minimizing environmental impact.

The new service line represents a significant investment in sustainable pest control technology and reflects growing consumer demand for environmentally responsible home services. Magic Pest Control has partnered with leading suppliers to source premium eco-friendly products that deliver superior results without compromising safety.

"Brisbane families deserve [pest control Brisbane](#) solutions that protect both their homes and the environment," said Samuel Rodgers for Magic Pest Control. "Our new eco-friendly program uses cutting-edge green technologies that are tough on pests but gentle on the planet. We believe effective pest management and environmental responsibility can go hand in hand."

The eco-friendly pest management program features plant-based treatment options, reduced-risk

pesticide applications, integrated pest management strategies, and non-toxic barrier treatments. All products used in the program have been rigorously tested and certified safe for use around children and pets.

Magic Pest Control's green solutions address all common Australian pest problems including termites, cockroaches, ants, spiders, rodents, and mosquitoes. The company's licensed technicians receive specialized training in eco-friendly application methods to ensure maximum effectiveness while maintaining environmental standards.

"Sustainability is not just a buzzword for us, it is a core business principle". "We have seen tremendous results with our eco-friendly treatments, and customer feedback has been overwhelmingly positive. People appreciate knowing they can protect their homes without exposing their families to harsh chemicals."

The launch of the eco-friendly program includes comprehensive pest inspections, customized green treatment plans, ongoing monitoring and prevention, and full customer education on sustainable pest management practices. Magic Pest Control provides detailed information about all products used, ensuring complete transparency for concerned homeowners.

In addition to residential services, the eco-friendly program is available for commercial clients including schools, childcare centers, restaurants, and office buildings where chemical sensitivity and environmental responsibility are priorities.

Magic Pest Control continues to offer traditional pest management options alongside its new green services, allowing customers to choose the approach that best fits their needs and preferences. The company remains committed to delivering fast, effective pest control solutions backed by industry-leading customer service.
