

MOI Technology received a \$2M soft commitment via W3S Group

Southwark, London Oct 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - After attending [Token2049](#) in Singapore on masse, Mol Technology held a virtual event launching their Main Net. Jonathan Pullinger of W3S Group leveraged this news into a \$2m soft commitment from a Galaet (subject to technical due diligence).

Jonathan said, "This offer will enable Mol to commit to an extensive KoL (Key Opinion Leader)

campaign for their upcoming TGE (Token Generation Event), and we're excited to have played our small part in the launch of the first context-chain."

Galaet look forward to joining Mol and becoming part of their web3 journey. Galaet specialize in empowering ambitious ventures to reach their full potential. As a dynamic investment and consulting partner, we combine strategic capital deployment with deep operational expertise to drive sustainable growth and long-term impact.

[Mol](#) Technology is excited to launch the world's first context chain.

The [W3S group](#) specialize in helping projects prepare for investment, launches and token generation events. The W3S group are excited to see another project achieve a seven-figure investment offer within twelve months of working with the project. Our Web3 native team leverage existing relationships to create meaningful impact for their projects.
