

ParkingCupid Launches the World's First Free-to-Contact Global Parking Marketplace on Kickstarter

From the author of *Parking Made Easy: Making Life Easier*, this Kickstarter campaign is transforming empty driveways into income and giving drivers direct, commission-free access to affordable parking spaces worldwide.

San Francisco, California Oct 28, 2025 ([Issuewire.com](https://www.issuewire.com)) - ParkingCupid Launches the World's First Free-to-Contact Global Parking Marketplace on Kickstarter

ParkingCupid — the pioneering platform founded by [Daniel Battaglia](#) — has officially launched its first Kickstarter campaign to revolutionize how people find, share, and profit from parking spaces worldwide.

Making Parking Fair, Easy, and Profitable for Everyone

Built on the mission of making parking *fair, easy, and profitable* for drivers, homeowners, and communities, ParkingCupid eliminates the middleman by allowing direct, commission-free contact between drivers and space owners. The platform connects people with unused driveways, garages, and private car spaces — turning everyday frustration into opportunity.

Founder **Daniel Battaglia**, also the author of the Amazon eBook [Parking Made Easy: Making Life Easier](#), created ParkingCupid after experiencing firsthand the struggle of finding affordable parking in

Sydney. “I saw empty driveways everywhere while drivers circled the block,” Battaglia says. “That moment sparked the idea — connect both sides directly, without commissions or fees, and everyone wins.”

From Local Startup to Global Movement

What started in Australia has now grown into a multi-country platform spanning the U.S., U.K., Canada, India, and beyond. Through Kickstarter, ParkingCupid aims to expand globally, enhance its mobile and mapping technology, and create new income opportunities for property owners.

Early supporters on Kickstarter can receive **lifetime VIP access**, **ad-free listings**, and even an **exclusive one-on-one session with the founder** — discussing startup growth, partnerships, and the future of smart mobility.

Why Back the Project

By supporting ParkingCupid’s Kickstarter, backers help fund:

- Global platform expansion into new countries
- Next-generation mobile tools, support and [parking ticket protection](#)
- Community partnerships and local awareness programs

Each pledge drives the project closer to a smarter, more connected, and fairer world of parking.
