

Persano – “Live 2026”: The Voice with a Soul Returns with Hope and Humanity

German soul-pop artist Persano takes his global vision to the stage — blending emotion, style, and message in a world-class live experience.

Puttlingen, Saarland Apr 24, 2026 ([Issuewire.com](https://www.Issuewire.com)) - With his upcoming live project “Persano – Live 2026,” the German artist Persano, globally known as “The Voice with a Soul,” returns to the stage with a renewed vision of hope, unity, and humanity.

Following the success of his multilingual peace anthem “Peace for All” and the global campaign “Global Brand 2026,” Persano now brings his deeply emotional message to life through a powerful and visually striking live performance series.

Produced under his independent label Persano Music, the project blends emotion, elegance, and musical excellence — a cross-border fusion of pop and soul. The stage concept combines royal blue and gold aesthetics with Persano’s signature message: Hope · Music · Humanity.

The campaign includes global promotion as well as selected television and radio exposure in the United States, connecting international audiences through meaningful artistry and powerful performances.
