

ProChek1 Vision X Expands Its Industrial Technology Ecosystem with the Launch of ConnectProChek1 SaaS Platform

AR PRO Smart Glasses, AI-Powered Platform, and Global B2B Marketplace Unite to Redefine Industry 4.0

Grand Rapids, Michigan Oct 31, 2025 ([Issuewire.com](https://www.issuewire.com)) - ProChek1 Vision X, a subsidiary of **One Body Ministration Holding, Inc.**, today announced the official launch of its **ConnectProChek1 SaaS platform**, a major milestone in the company's mission to deliver a fully integrated industrial technology ecosystem. The new SaaS solution available at www.connectprochek1.com extends the company's capabilities in augmented reality (AR), artificial intelligence (AI), and global B2B collaboration, offering industries a comprehensive platform designed to enhance efficiency, accuracy, and communication across the digital supply chain.

The ConnectProChek1 SaaS launch builds upon ProChek1 Vision X's flagship innovations, including the **AR PRO Smart Glasses** and the **Vision X Global Marketplace**, creating a single ecosystem where hardware, software, and global enterprise connectivity work in synergy to transform industrial operations worldwide.

AR PRO: Redefining the Frontline Experience

Developed for demanding industrial environments, the **AR PRO Smart Glasses** empower frontline workers to access real-time data and visual intelligence seamlessly. Featuring **dual 4K micro-OLED displays** projected through proprietary **binocular waveguide lenses**, the AR PRO delivers unparalleled clarity with an **80° diagonal field-of-view**.

Powered by an on-board **Neural Processing Unit (NPU)**, the device executes **real-time AI analysis** directly at the edge eliminating latency and cloud dependency. ProChek1 Vision X's proprietary **AI Triangulation™** technology enables instant visual recognition and spatial awareness, allowing for precision-driven decision-making in high-stakes environments such as construction, manufacturing, energy, and logistics.

Built for durability and comfort, the AR PRO's **lightweight carbon fiber frame**, **IP67 protection**, and **hot-swappable battery system** ensure uninterrupted 24/7 operation, even in the most challenging conditions.

ConnectProChek1 SaaS: Powering Industrial Intelligence

The newly launched **ConnectProChek1 SaaS platform** extends the power of ProChek1 Vision X's technology by integrating **AI-powered inspection**, **workflow automation**, and **real-time collaboration** into one intuitive system. Through a centralized dashboard, enterprises can monitor field operations, analyze visual data, and manage compliance in real time all while connecting directly to the company's AI engine for predictive insights.

Key features of the platform include:

- **Remote Expert Collaboration:** Enables ultra-low-latency HD video streaming between on-site technicians and remote engineers, allowing experts to annotate and guide field operations in real time through AR telestration.
- **AI-Powered Quality Assurance:** Advanced algorithms detect construction defects, alignment errors, and compliance deviations with unmatched precision.
- **Automated Workflow Management:** Provides hands-free access to checklists, schematics, and digital work orders, automatically generating geotagged reports and documentation.
- **Seamless Enterprise Integration:** Offers API-based compatibility with major platforms such as **Autodesk Construction Cloud** and **Procore**, ensuring smooth adoption across industries.

“The ConnectProChek1 SaaS launch represents the culmination of years of innovation,” said **Herman B. Smith**, Founder and CEO of ProChek1 Vision X and author of *Revolutionizing Inspections with Cognitive Technology and AI Triangulation*. **“We are not just providing technology; we are delivering an ecosystem that merges human expertise with artificial intelligence to transform how industries operate.** Our goal is to empower frontline workers with superhuman capabilities, streamline operations, and create an intelligent feedback loop that makes every process smarter over time.”

Vision X Global Marketplace: Connecting Innovation Worldwide

Complementing the SaaS platform and AR hardware is the **Vision X Global Marketplace**, the first worldwide B2B hub connecting manufacturers and suppliers of robotics, automation tools, and optical technologies with enterprise buyers and integrators. This marketplace fosters collaboration and accelerates procurement across multiple industries including construction, healthcare, logistics, agriculture, and manufacturing.

Through the Marketplace, businesses can access a growing network of partners, purchase automation equipment, and integrate their operations into the broader ProChek1 Vision X ecosystem creating an interconnected industrial community powered by data and innovation.

The Ecosystem Advantage: Intelligent Integration

The strength of ProChek1 Vision X lies in how its technologies work together. The **AR PRO Smart Glasses**, **ConnectProChek1 SaaS platform**, and **Vision X Global Marketplace** operate as a self-reinforcing ecosystem where data, AI, and automation continuously enhance one another.

Field data collected via AR PRO devices trains the AI models for better accuracy; improved AI drives smarter workflows through the SaaS platform; and increased operational efficiency generates greater demand within the marketplace. This “**flywheel effect**” creates a compounding cycle of innovation that accelerates productivity and drives exponential growth.

Market Reach and Impact

ProChek1 Vision X is strategically targeting the **\$1.3 trillion U.S. construction sector** and the **\$35 billion field service management market**, offering its solutions through a flexible **SaaS subscription model** that democratizes access to enterprise-grade technology. By unifying AR, AI, and automation under one ecosystem, the company is redefining how businesses approach quality assurance, coordination, and workforce empowerment.

The company’s technology directly addresses the growing demand for **digital transformation in Industry 4.0**, equipping organizations with tools to reduce human error, streamline communication, and improve operational outcomes. Its scalable model ensures that businesses of all sizes from startups to global enterprises can leverage cutting-edge AI and AR capabilities at a fraction of traditional costs.

About ProChek1 Vision X

ProChek1 Vision X is a technology subsidiary of **One Body Ministration Holding, Inc.**, pioneering a comprehensive ecosystem for **Industry 4.0** through its fusion of augmented reality, artificial intelligence, and automation. Founded by industry innovator **Herman B. Smith**, the company is redefining industrial technology with its **AR PRO Smart Glasses**, **ConnectProChek1 SaaS platform**, and **Vision X Global Marketplace**.

By integrating real-time intelligence, data analytics, and collaborative tools, ProChek1 Vision X delivers a unified solution that transforms how industries build, inspect, and evolve in a rapidly digitizing world.
